

## MEDICAL SERVICES DIVISION

### ENHANCE YOUR SUCCESS, EVEN IN CHANGING TIMES

The heart of a vibrant healthcare region in Northeast Georgia, Gainesville has been ranked as one of “America’s Best Places to Practice” by Medical Economics magazine. Rushton has been at the hub of this regional healthcare sector for 25 years, helping physicians, dentists and medical groups grow and prosper. We are well-versed in the intricacies of healthcare finance with knowledge of the fine print of ever-changing laws and related regulations such as the “Stark case” verdict impact, HIPAA compliance and numerous federal, state and local mandates.

Over time, we’ve established a rare expertise – successfully counseling more than 200 physicians, dentists and medical professionals – which led our firm to establish a specific division solely guiding medical professionals.

Led by director Tonya Tucker, the Medical Services Division provides:

- Financial reporting, including issuing monthly statements
- Business tax planning and preparation
- Consulting, including expertise in accounting software, practice management, transition succession planning and practice continuation
- Finance negotiations (buy-ins and buy-outs, physician contracts, profit allocation formulas)
- Payroll services, from full to partial service, including payroll reports
- Personal financial and retirement planning, translating detailed knowledge of the practice into accounting advantages for the individual
- Estate planning
- Individual tax planning & preparation
