The Best Time to Invest

By Floyd Green

Issue #21, October 2013

If you have been a client or read our newsletter for any length of time, you know that there are a number of consistent themes. We keep repeating them because they have served our clients well for the past almost thirty years. There are lots of messages we could focus on; we think we know what the important ones are by now.

We want to help our clients live a full life by providing them with planning and perspective. Planning and perspective will keep you from focusing on the vagaries of the financial markets and the unknowability of the future. They will also help you focus only on the things you control and live a regret-free life.

With this in mind, we would like to share this 3 minute video with you.

[The Best Time to Invest](#)
