Re: **Customers Targeted by Phishing Email**

Dear client,

We have been notified that some Fidelity customers might have been targeted by an email phishing campaign which began on Thursday, April 6, 2017. **Please do not click on the links.** However, if you have, we are told by Fidelity that clicking on links contained within the email has resulted in customers' PINs being blocked.

Fidelity recommends the following: if your PIN has been blocked and restrictions have been placed on your login, please complete the following steps:

- Do not click or re-click any links in the email
- Update Login Credentials
- Setup VIP Access
- It is recommended to update to a new unique password on email account

Safeguarding our clients' assets and personal information is a top priority at Stevens First Principles. If you have any questions or if you have been impacted by this incident and need assistance, please feel free to contact us at 949-251-9333 or email me at arash@sfpria.com.

Sincerely,

**STEVENS FIRST PRINCIPLES INVESTMENT ADVISORS**
