DOUG RADCLIFFE ATTENDS PRESTIGIOUS INVESTMENT SYMPOSIUM IN CHICAGO

OCTOBER 17-19, 2012 — Chicago, Illinois

Doug Radcliffe, Senior Financial Planner and owner of Invest Central of San Antonio participated in the 2012 MetLife Securities National Conference, which took place October 17-19 at the Marriott Downtown Chicago Magnificent Mile Hotel. This was Radcliffe's 14th consecutive year to attend this invitation-only symposium for investment specialists and Inner Circle members.

The annual conference provides select investment professionals a forum for education and networking through workshops, panel discussions and vendor exhibitions. The theme, "Defining Client Experience" for this year's conference is a reminder of our industry's commitment to client centricity.

"We at Invest Central continually strive to support our clients' goals through ongoing learning and excellence," says Doug Radcliffe, adding "this select, annual gathering offers a unique opportunity to exchange best practice management solutions and ideas with respected colleagues from across the country."

A few highlights of this year's conference included:

- Lively discussion among an Equity Markets panel which featured industry experts Bob Doll of BlackRock, Richard Golod, director of global investment strategies for Invesco and Dr. David Kelly, chief market strategist of J.P. Morgan Funds.
- Keynote speeches by Alan Simpson, former U.S. senator and co-chair of the National Commission on Fiscal Responsibility and Reform, and Medal of Honor recipient Salvatore Giunta, awarded for service in Afghanistan.

In addition, a wide variety of conference workshops addressed timely topics, namely compliance and regulatory matters, social media, as well as solutions for managing high-net-worth portfolios.

Doug Radcliffe was named to MetLife's Inner Circle program in 1998. The program recognizes a select number of professionals for excellence in the areas of client sales and investment sales. Through New England Financial, a MetLife Company, Invest Central provides a broad range of investment services including asset protection, allocation strategies and business succession for small business owners.
