
No Stimulus, Stocks Lag

Weekly Update – November 2, 2020

The Week on Wall Street

Stock prices dropped last week as hopes for a fiscal stimulus bill faded and investors focused on rising COVID-19 infections, here and abroad.

The Dow Jones Industrial Average slid 6.47%, while the Standard & Poor's 500 tumbled 5.64%. The Nasdaq Composite index lost 5.51% for the week. The MSCI EAFE index, which tracks developed overseas stock markets, slumped 5.02%.^{1,2,3}

A Difficult Week for Stocks

Stocks opened the week lower as lawmakers failed to pass a fiscal stimulus bill and a pick up in the number of new COVID-19 cases in the U.S. and Europe. Hardest hit were companies most exposed to pandemic-related economic impacts, including energy, travel and leisure, and industrials.

Losses accelerated mid-week on reports of rising coronavirus-related hospitalizations, along with news that Germany and France were reinstating partial shutdown restrictions.⁴

Stocks attempted to recover on Thursday, but took another leg lower on Friday as earnings reports from the mega-cap technology companies failed to impress investors.

Positive Economic News

There were several strong economic reports during the week, but investors paid little attention. Among the highlights were durable goods orders, which rose for the fifth consecutive month, a sharp drop in initial jobless claims that were the lowest since March 14th, and a 33.1% annualized jump in economic growth during the third quarter.^{5,6,7}

Investors also ignored a strong start to earnings season, which has seen 85% of reporting companies in the S&P 500 index beating earnings estimates by an average margin of 19%.⁸

THIS WEEK: KEY ECONOMIC DATA

Monday: ISM (Institute for Supply Management) Manufacturing Index.

Wednesday: ADP (Automated Data Processing) Employment Report. ISM (Institute for Supply Management) Services Index.

Thursday: Jobless Claims. FOMC (Federal Open Market Committee) Meeting Announcement.

Friday: Employment Situation.

QUOTE OF THE WEEK

"You have succeeded in life when all you really want is only what you really need."

– Vernon Howard

Pumpkin Pie

Serves 8

Ingredients:

- 1 pie crust, homemade or premade
- 1 cup brown sugar
- 1 Tbsp. all-purpose flour
- ½ tsp. salt
- 1 tsp. ground cinnamon
- 1 tsp. ground ginger
- ½ tsp. ground nutmeg
- ⅛ tsp. ground cloves
- 3 large eggs
- 15 oz. can pumpkin puree
- 1 ¼ cups evaporated milk

Directions:

1. Preheat oven to 400°F.
2. Roll out the dough to 12-inch diameter.
3. Place dough gently, into a 9-inch pie plate, trim extra dough, and flute edges.
4. Line pie dough with parchment paper or foil, covering the bottom, and fill with something like dried beans or rice to weigh it down.
5. Bake pie crust at 400°F for 12 to 15 minutes.

6. Remove from the oven and take out covering and pie weights.
7. Return pie crust to the oven to bake for an additional 5 minutes.
8. Remove from the oven and set aside to cool.
9. Whisk together the brown sugar, flour, salt, cinnamon, ginger, nutmeg, and cloves until well combined.
10. In another bowl, whisk together eggs, pumpkin puree, and evaporated milk until well combined. Pour egg and pumpkin mixture into sugar and spices, mix well.
11. Pour the pie filling into the partially baked pie crust.
12. Return to oven and bake at 400°F for 45-50 minutes, or until almost set.
13. Remove from the oven and transfer to a wire rack to cool, 2-3 hours. completely.
14. Cover tightly and refrigerate overnight.

Know the Signs of an IRS Phone Scam

Unfortunately, criminals often use the IRS as a gateway for common phone scams. These scams can differ, but they generally include someone posing as an IRS agent asking for payment. These calls can be scary, especially if you don't know what to believe.

Here are some signs of a phone scam so you can recognize them and report them to the IRS immediately:

- Generally, the IRS will first try to reach you by mail if you owe money. If you haven't received any previous notice, the call might be fraudulent.
- The IRS will never ask about personal information over the phone, such as your Social Security Number.
- The IRS will also never request immediate payment using specific payment methods such as prepaid debit cards, gift cards, or wire transfers.
- The IRS won't demand that these taxes be paid without giving you the opportunity to ask questions about the amount owed.
- The IRS won't threaten to immediately bring in law enforcement groups to have you arrested for not paying.

If you receive these scam calls, hang up immediately and report the call to the IRS using the IRS Impersonation Scam Reporting form or by calling 800-366-4484.

Examine Your Spine Angle at Address

Your posture is one of the most important parts of your golf swing. Included in your posture is your spine angle at address and here, we share some tips on how to achieve the perfect angle to maximize your rotation.

Every golfer's swing is going to be a little different depending on your unique body type and flexibility, but generally you should have a slight arch at your pelvis to create a straight spine. Many golfers hunch their shoulders into more of a "C" posture or are too extended, which can cause issues with your rotation. Instead, focus on a straight line going from your hips through your back and shoulders.

A simple drill to test whether or not you have the correct spine angle is to put a golf club along your spine and see if you can easily fit your hand between the club and your back. It should be a snug fit. If there's too much space or too little space, your spine angle might be off.

The Mental and Physical Benefits of Walking

We all know the many potential benefits of exercise, but did you know that sometimes the simplest exercises are some of the most beneficial? Walking might seem like such a simple thing to do, but there are many potential health benefits to this form of exercise.

First off, walking has a very low barrier of entry and may be a good choice for people of all fitness levels! You don't need any fancy equipment or skill level. Just grab your favorite pair of shoes and hit the road!

Secondly, walking may benefit both your mental and physical health. You burn active calories while walking, which can help with weight management, cardio health, and energy levels. But walking may also be a meditative escape for many people. It offers the chance to disconnect and focus on the moment. Walking for the sake of walking is one of the only exercises that doesn't have an end goal, meaning that you can focus on just putting one foot in front of the other. Some people might enjoy listening to music or podcasts while they walk, but also consider just listening to the sounds around you. With so much screen time in our daily lives, it's nice to disconnect for even just a short walk.

The Art of Thrifting

Thrift store shopping is not only fun (think: treasure hunting), but it's a great way to recycle clothing, housewares, and other items. True, there can be a lot of clutter to sort through, but with a few pro-tips, you'll be thrifting with the best of them.

Upcycle. You might just find that perfect denim jacket or pair of jeans to embroider, bedazzle, or alter, creating an entirely new look. Furniture can be transformed and upcycled to make into functional (and stylish) decor. Pinterest is a great resource for upcycling ideas.

Location, location, location. You may be tempted to go to more upscale neighborhoods, but you never know where you'll score great stuff, so try varying where you scout.

When you thrift makes a difference. Skip Halloween and back-to-school time. The stores are usually picked over.

Know when to fold 'em. Say no to sweat-stained and odor-laden clothing, and definitely, say no to moth holes. A bit of sewing, or even, springing for new soles on a pair of amazing shoes, is doable – and worth it.
