Risk Tolerance Questionnaire

To assist you in determining your own investment style, we are providing the following Investor Profile Worksheet as a tool for reviewing the fundamental issues of your tolerance to risk and your investment time line. Also, your own personal financial goals and needs will be strongly considered. By answering this questionnaire, you will know your own investor style for which we can suggest a portfolio that applies to your personal situation.

Please answer each of the following questions by clicking the number to the left of the response that best describes you. After you have completed the worksheet, total up the numbers checked for each section and enter the total amount on the Investor Profile Summary. Once you have your total, consult the Investor Profile Portfolios chart for your portfolio preference.
