

July 2022 Newsletter

Is now a good time for you?

How you answer that question in 2022 is sounding more like how you answer the age-old phrase "Is the glass half-empty or half-full?"

Your outlook on a situation can make all of the difference.

Last week a measure of the "feel good" sentiment in the U.S. hit a surprising low. Apparently, households are the most depressed they have been since the University of Michigan began its long-running Consumer Sentiment index in the 1950s.

Does this describe how you feel? If so, we definitely need to talk! Because those results deserve a reality check. Even in this environment, it's important to stay focused on the bigger picture and the goals you have for the future. And working together, we can find the silver lining.

Here are some articles I found interesting. Please enjoy them and let me know if you have any questions or thoughts.

Thank you,

Peter
