

What you don't know about your life insurance policy could cost you a fortune!

At age 80, Norman's life insurance policy had a \$5 million death benefit with a yearly payment of \$66,000. Unfortunately, he didn't know that if he lived another ten years, his payment would increase to \$400,000 annually!

Until her consultation with Alan Kaye, Joyce didn't know that unless she continued making payments, her \$1 million policy would be cancelled on her 87th birthday.

Do you know:

- Whether your policy will be cancelled if you stop making payments?
- If it's guaranteed to stay in effect for your lifetime at your current payment?
- If your policy can stay in effect beyond age ninety or even one hundred?
- If your cash value is sufficient to buy 50% more coverage than you have now?
- If you can sell your policy for more than its cash surrender value, even if it's term insurance?

Let's face it! Most people don't have a clue!
