*Illinois Public Pension Fund Association*

The life you want in retirement begins right here, right now.

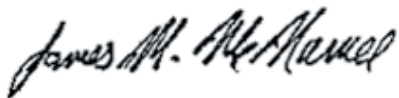

# The Wise Choice For Educators<sup>®</sup>

The Illinois Public Pension Fund Association (IPPFA) was established to meet the retirement needs of our fellow public-sector workers. We provide you with access to a supplemental savings plan that provides retirement education for all employees, is professionally managed, and includes a superior level of customer service.

We believe that no employee should have to pay higher fees, receive biased information, or receive inferior customer service because he or she works for a small or medium size unit of government. Our plan offers the same pricing, level of education and plan design (including access to 457(b) and 403(b)) to all employees, regardless of the size of the district.

*The Wise Choice for Educators<sup>®</sup>* provides participants access to a 457(b) and a 403(b) and was created by the IPPFA with your needs in mind. By pooling the buying power of other school districts and units of government, *The Wise Choice for Educators* plan provides participants a full range of investment options and unbiased education that will help improve your retirement readiness. *The Wise Choice for Educators* plan uses Transamerica Retirement Solutions, a subsidiary of AEGON Corp with nearly \$800 billion assets under management as the record keeper.

Whether you're just starting to save for retirement, already participating in the plan, or getting ready to retire, we want you to know that *The Wise Choice for Educators* plan is with you every step of the way. This booklet has all the information you need to invest for your retirement. Enroll now and achieve the retirement you deserve.

## Plan Highlights

*The Wise Choice for Educators*® retirement plan is a valuable employee benefit and one of the most powerful ways to build your retirement savings.

*The Wise Choice for Educators* plan has been designed to emphasize unbiased employee education and was created with easy to understand enrollment materials. Take a few minutes now to read through the plan's highlights and learn about all the features and benefits your plan includes. You'll learn when you can join, how much you can contribute, when you can make changes, and how you can access your retirement savings.

Just keep in mind that this is a quick overview of your benefits.

### **457(b) or 403(b)**

Both 457(b) and 403(b) plans are payroll deduction retirement plans aimed at helping you save additional money for retirement. These plans supplement your pensions.

Both plans offer pre-tax and after tax (Roth) contributions. Pre-tax contributions provide tax deferred earnings with distributions taxable upon receipt. Roth contributions are post-tax and earnings are tax free. The plans have the same contribution limits and the limits do not coordinate or integrate with each other; you can fully fund both plans.

Generally, the common practice is to fully fund one and only use the second plan when you wish to exceed the single plan contribution limit. That begs the question: "Which plan should I use if I defer less than \$23,000 annually?"

### **Access to funds while employed (in-service access)**

At attainment of age 59½, in-service distributions are permitted from both the 457(b) and 403(b) plan without the excise tax. Both plans allow you to access your funds while you are employed via loans and/or hardships. While the loan provisions are identical, there are differences in the hardship rules that specifically impact those who wish to use this provision for the purchase of a primary residence or for funding college education. In these two areas 403(b) is considered more flexible. However, most financial planners would advise that your 403(b) plan is not the appropriate place to access college funds once you take into consideration the 10% excise tax and the income taxes paid on the distribution.

### Taxation of distributions at separation of service

After separation of service, 457(b) pre-tax distributions are not subject to a 10% excise tax for severance or retirement distributions prior to age 59½. 403(b) distributions are subject to the excise tax under these circumstances. The excise tax is in addition to the regular income tax due.

This is especially important for those that expect to:

- Retire before age 59 ½
- Not spend your entire career in your current district

While neither of the above may be planned, they may occur none the less.

*With the passage of The Secure Act effective January 1, 2020, in our opinion, the 457(b) should be your primary savings plan.*

### Roth 457(b) and 403(b)

You may make all or a portion of your contribution into either the 457(b) or 403(b) plan as an after-tax (Roth) contribution. The funds will grow tax free. Distributions are received tax free as long as the funds were in the plan for five years and the withdrawal is taken after age 59½.

### 457(b) Plan

#### 457(b) Eligibility

You are immediately eligible to participate in the plan.

#### How much can I contribute?

You may choose to make contributions up to the maximum allowed by law. The annual IRS dollar limit of \$23,000 applies for 2024. This limit is indexed annually by the IRS.

If you are age 50 or older (or you reach age 50 during the current calendar year), you can make additional catch-up contributions up to \$7,500 in 2024.

In the three calendar years prior to the year of retirement you may be eligible to use the “alternative catch-up rule”. A participant may potentially defer \$69,000 for up to three consecutive years.

#### What do I do with money in another 457(b) plan?

If you have an existing retirement plan account with a prior employer, you may roll over that account into *The Wise Choice for Educators* plan at any time. Consolidating your retirement accounts makes it easier for you to ensure your investment strategy is on track to meeting your retirement goals.

#### Vesting

Vesting refers to your “ownership” of your account. Your contributions and earnings are 100% vested.

#### Access to funds while employed

There are three ways to access your funds while you are employed (in-service access): loans, hardships or after age 59½.

#### Loans

You may borrow from the plan using your account as security (conditions and restrictions may apply). All loans with a same employer plan are aggregated for these limits. You must count both *The Wise Choice for Educators* 457(b) and 403(b) together for this purpose.

Minimum loan amount: \$1,000

Maximum loan amount: 50% of your vested account balance up to \$50,000

General loan interest rate: Prime

Maximum general loan term: 5 years. If for a primary residence, then the loan may be amortized over 15 years.

Loan origination fee: A one-time set-up fee of \$75 per loan is deducted from the loan distribution. A \$6.25 ongoing loan maintenance fee is deducted quarterly beginning the quarter after the loan is processed.

Maximum number of outstanding loans: 2

All loans are paid back through monthly coupon payments initiated by participant. Defaulting on a loan with a coupon book prohibits the ability to take future loans.

### Withdrawals

Vested funds may be withdrawn from your plan account in these events:

- Age 59<sup>1/2</sup>
- Termination of employment or retirement (any age and Roth restrictions, if applicable)
- Financial hardships defined by IRS regulations
- Disability
- Death

Distributions must begin at attainment of age 73 or retirement, if retirement is after attainment of 73. Please see your plan administrator for additional important information about your future distribution election.

\* Please note there is no 10% excise tax on distributions made from pre-tax contributions after separation of service from 457(b) plans regardless of age.

### Roth 457

You may make all or a portion of your contribution as an after-tax contribution. Distributions are received tax free as long as the Roth funds were in the plan for five years, and the withdrawal is taken after age 59<sup>1/2</sup>.

The funds range from short-term, conservative options that invest more of their assets in bonds to long-term, aggressive options that invest more of their assets in stocks. These funds do not change their asset allocation to become more conservative over time.

You can select an asset allocation fund based on your desired risk level and/or years until retirement. *Asset allocation funds are subject to the risks of the underlying funds in which they invest. To the extent the fund invests more of its assets in stock investments; it will be subject to greater risk than a fund investing more of its assets in bond funds.*

## Do it yourself

### Create your own investing strategy

You can also create your own investment mix using the funds available in your plan. These funds offer flexibility for both new and experienced investors. With this approach, you can develop an investing strategy that is tailored just for you.

By establishing a PCRA, you assume responsibility for controlling your investments. For more information on establishing and maintaining a PCRA, please call us at 800-755-5801.

*You must individually apply for PCRA and are solely responsible for your fund selections made under the PCRA. # PLAN COSTS CAN MAKE A DIFFERENCE!

Astute investors consider total fees an important criterion in selecting investment providers. To adequately compare the fees on your Supplemental Savings options (403(b) & 457(b)), you may wish to do a total fee analysis by:

- Finding out if the plans or investments under consideration have fees other than those calculated as part of the expense ratio on the investment(s)
- Add that number, if any, to the expense ratio on the investment(s) to determine Total Expenses
- Determine if there is a "fee differential" in your options and make a judgment if there is value received for that differential in performance, additional contract features or service.

Many Supplemental Savings do not build their plan operational costs into the expense ratios on the investments. They may have additional fees. These are generically referred to as "wrap fees" and they may include one or more of the following charges\*:

- Administrative Fee
- Variable Expense Charge
- Actuarial Risk Charge
- Mortality and Expense Charge
- Mortality and Administration Charge

These charges are taken out daily in the calculation of unit values and cannot be seen on a statement. The disclosure may be in the master contract, prospectus or other disclosure material and can be hard to find.

A. You may roll over your distribution if *all* of the following apply:

1. The distribution is an “eligible rollover distribution”. Generally, any portion of a distribution from an eligible retirement plan or traditional IRA is considered an eligible rollover distribution. The following types of payments generally *cannot* be rolled over to a retirement plan:
  - “Permissible Withdrawals” of initial elective deferrals and earnings from certain special automatic enrollment 401(k) or 403(b) Plans that are withdrawn within 90 days of enrollment
  - Annuity payments for life or joint life expectancy; installments to be paid over a period of 10 years or more
  - Required minimum distributions
  - Corrective distributions of contributions that exceed tax law limitations
  - Excess contributions, excess deferrals, and excess aggregate contributions that apply to 401(k) ADP or 401(m) ACP nondiscrimination tests
  - Distributions to a non-spouse beneficiary unless directly rolled over to an inherited IRA
  - Hardship distributions
  - Loans treated as deemed distributions (for example, loans in default due to missed payment before your employment ends)

Note: After-tax contributions from a qualified plan or 403(b) plan (but not from an IRA) can be rolled over (via a direct rollover) only to another qualified plan or to a 403(b) plan that separately accounts for them or to an IRA.

Roth Contributions made to a 401(k) plan or a 403(b) plan can be rolled over (via a direct rollover) only to another 401(k) plan or 403(b) plan that separately accounts for them or to a Roth IRA.

2. The distribution is from an eligible retirement plan or a traditional IRA.

- An eligible retirement plan is an employer pension or profit-sharing plan qualified for favorable tax treatment under Section 401(a) or Section 403(a) of the Internal Revenue Code, or a Section 403(b) Tax Deferred Annuity (TDA) plan or a Section 457(b) governmental plan. *(Note: The Transferee retirement plan may not accept all of these types of rollovers. Please check with the sponsor of your new plan.)*
- Any rollover from a section 457(b) governmental plan to a 401(a) or 403(b) plan may be subject to the 10% additional tax on early distributions when later distributed.
- A rollover to a governmental 457(b) plan must be separately accounted for by such plan. Please check with your employer.

3. One of the statements below describes your distribution.

- The distribution is paid to you and the rollover is made within 60 days of receipt of distribution. *(Note: After-tax contributions cannot be rolled over as part of a distribution payable by check to you.)*
- The eligible “direct” rollover distribution is paid directly from an eligible retirement plan or traditional IRA to your new eligible retirement plan. *Sample wording for direct rollover: Trustees of (name of plan at Transamerica and account number), FBO (name of participant and Social Security number). Your employer will advise you on the exact wording of the plan name and account number, and the types of distributions that can be rolled over into this plan.*

B. If your distribution includes Roth account monies from either a Roth 401(k) or Roth 403(b) plan, you may roll over the Roth account monies in accordance with the following rules:

1. The distribution must be an “eligible rollover distribution”. Generally, any portion of a Roth account that is distributed from either a Roth 401(k) plan or a Roth 403(b) plan is considered an eligible rollover distribution (see Section A.1 above for the types of Roth payments that cannot be rolled over). Transamerica will only accept Roth account monies by means of a direct rollover from another Roth plan.
2. Roth account monies that are distributed from a Roth 401(k) or Roth 403(b) plan (and include non-taxable amounts) can be rolled over (via a direct rollover) only to another Roth Account plan that separately accounts for them or to a Roth IRA.
3. If the Roth distribution is paid directly from either a Roth 401(k) plan or from a Roth 403(b) plan to your new Roth 401(k) plan or Roth 403(b) plan, you *must* provide Transamerica with a copy of the rollover statement issued by the transferring Roth plan (see Section A.3 above for sample wording for a direct rollover).

*Note: Distributions from a Roth IRA may not be rolled over to an “eligible retirement plan” (defined above).*

For complete information regarding plan payments, penalties, and the associated tax implications if a direct rollover is not elected, please review the Notice: Special Tax Notice Regarding Plan Payments that was provided by your former employer or payor and/or consult your tax advisor. You may be asked by the transferee plan or IRA to provide additional documentation. Check with them in advance.

(1) The 403(b) plan sponsored by your employer must permit such contract exchanges and (2) the investment provider receiving the transfer must be an approved investment provider under your employer's 403(b) plan or such provider must have entered into an information-sharing agreement with your employer.

Any 403(b) funds transferred to Transamerica from another 403(b) investment provider for your employer's 403(b) plan must continue to be subject to distribution restrictions that are not less stringent than those imposed on the contract being exchanged.

Any 403(b) funds transferred to Transamerica under a 403(b) Contract Exchange will retain their December 31, 1986 and/or December 31, 1988 grandfathered status, (if applicable) provided the necessary information is timely provided to Transamerica by your present investment provider in the section provided on Transamerica's Incoming Contract Exchange (within the Same Plan), in accordance with the instructions on that form.

If you transfer 403(b) assets from a non-ERISA 403(b) plan to an ERISA-covered 403(b) plan, the transferred assets will automatically become subject to the requirements of ERISA. ---

Under the existing IRS Contract Exchange rules, your 403(b) account or annuity may be transferred to another investment provider for the *same 403(b) plan*, provided certain requirements are met.

Any 403(b) funds transferred to Transamerica from another 403(b) investment provider for your employer's 403(b) plan must continue to be subject to distribution restrictions that are not less stringent than those imposed on the contract being exchanged.

Any 403(b) funds transferred to Transamerica under a 403(b) Contract Exchange will retain their December 31, 1986 and/or December 31, 1988 grandfathered status, (if applicable) provided the necessary information is timely provided to Transamerica by your present investment provider in the section provided on Transamerica's Incoming Contract Exchange (within the Same Plan), in accordance with the instructions on that form.

How to locate your starting portfolio on the chart

In order to locate your starting portfolio, use the Investment Allocation chart on the following pages. First, determine your risk preference, which is represented by one of the three lines located at the top of the chart and labeled "conservative" "moderate" or "aggressive." For example, if you consider yourself a conservative investor, choose the line labeled "conservative."

Once you've located the appropriate line for your risk preference, follow that line across until you locate the number that corresponds to your "years to retirement." You can determine your years to retirement by subtracting your current age from your designated retirement year. (Your "designated retirement year" is the year you expect to retire, such as age 65, which is not necessarily the same as the normal retirement age, if any, under your retirement savings plan.) The resulting number is your years to retirement for purposes of the service. (Note: if your actual years to retirement falls between two numbers on the chart, select the higher number as your years to retirement.)

Once you've located your years to retirement for your selected risk preference, the portfolio located directly beneath your years to retirement is your starting portfolio under the service. The chart shows how your starting portfolio is initially allocated between various types of stocks and bonds; and also shows how and when your portfolio will be automatically reallocated over time as you approach the designated retirement year and the years thereafter. (The term "Bonds" in the chart may also include short-term fixed income securities such as those found in money market funds.) For additional information about how each asset class is allocated among the funds available in your plan, please visit [my.trsretire.com](http://my.trsretire.com). If you are subscribing to the PortfolioXpress service, you will automatically be enrolled in the "moderate" risk preference category. Should you prefer to change your risk preference, you may do so online at [my.trsretire.com](http://my.trsretire.com)

PortfolioXpress presents a series of asset allocation models that are designed to take you up to and through a designated retirement year. You are

solely responsible for selecting the retirement year and risk preference. By subscribing to the service, you agree to each of the asset allocation mixes, and automated rebalancing transactions that will take place over time within the account as you approach your selected retirement year. If you are defaulted into this service by your employer, your designated retirement year is specified in the default investment notice provided to you with the PortfolioXpress Profile and Service Agreement. You will continue to bear the fees of the underlying funds in which the account is invested. You can obtain additional information at [www.trsretire.com](http://www.trsretire.com).
