SALVUS WEALTH MANAGEMENT, LLC

CRD #171986

ADV Part 2A, Brochure

Dated: June 26, 2019

Contact: Robert W. Joel, Chief Compliance Officer

1040 Broad Street, Suite 203

Shrewsbury, NJ 07702

732-542-2629

This Brochure provides information about the qualifications and business practices of Salvus Wealth Management, LLC. If you have any questions about the contents of this Brochure, please contact us at bj Joel@salvuswealth.com or 732-542-2629. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Additional information about Salvus Wealth Management, LLC also is available on the SEC's website at www.adviserinfo.sec.gov.

References herein to Salvus Wealth Management, LLC as a "registered investment adviser" or any reference to being "registered" does not imply a certain level of skill or training.

Item 2 Material Changes

There have been no material changes made to this Brochure since the March 29, 2019 annual update filing. However, on June 26, 2019, Salvus Wealth Management, LLC filed an application for registration as an investment adviser with the United States Securities and Exchange Commission (“SEC”). Salvus Wealth Management, LLC is currently registered as an investment adviser with the New Jersey Bureau of Securities and various other state agencies. As a result, Item 4 of this Brochure has been amended with respect to registration status since the March 29, 2019 annual update filing.

Upon registration with the SEC, Salvus Wealth Management, LLC will: withdraw its applicable state registrations; amend this Brochure to update Items 4, 18, and remove Item 19; amend the ADV Part 2B Brochure Supplement to remove Item 7; and “retire” the ADV Part 2B, Brochure Supplement from public filing, consistent with regulatory requirements.

Salvus Wealth Management, LLC’s Chief Compliance Officer, Robert W. Joel, remains available to address any questions that a client or prospective client has about this Brochure.

Item 4 Advisory Business

- A. Salvus Wealth Management, LLC, (the “Registrant”) is a New Jersey limited liability company formed on June 5, 2014 and has been registered as an Investment Adviser with the New Jersey Bureau of Securities effective September 17, 2014, and has been registered with various other state agencies since that time. The Registrant is submitting this ADV Part 2A as part of its application to register as an Investment Adviser with the United States Securities and Exchange Commission. The Registrant is principally owned by: Charles T. Woolston, the Registrant’s Managing Member and Chief Executive Officer; and Robert W. Joel, the Registrant’s Chief Compliance Officer and Chief Investment Officer.

- B. As discussed below, the Registrant offers to its clients (generally: individuals, high net worth individuals, pension & profit sharing plans, trusts, estates, corporations or other businesses) investment advisory services, financial planning and consulting services, and retirement plan consulting services.

INVESTMENT ADVISORY SERVICES

The client can engage the Registrant to provide discretionary and/or non-discretionary investment advisory services on a fee basis. The Registrant’s annual investment advisory fee is based upon a percentage (%) of the market value of the assets placed under the Registrant’s management. Before engaging the Registrant to provide investment advisory services, clients are required to enter into an Investment Advisory Agreement with Registrant setting forth the terms and conditions of the engagement (including termination), describing the scope of the services to be provided, and the fee that is due from the client.

Registrant’s annual investment advisory fee shall include investment advisory services, and general financial planning and consulting services. In the event that the client requires extraordinary planning and/or consultation services (to be determined in the sole discretion of the Registrant), the Registrant may determine to charge for such additional services pursuant to a stand-alone Financial Planning Agreement (see below).

The Registrant provides investment advisory services specific to the needs of each client. Before providing investment advisory services, an investment adviser representative will ascertain each client’s investment objectives. Then, the Registrant will allocate and/or recommend that the client allocate investment assets consistent with the designated investment objectives. The Registrant primarily allocates or recommends that clients allocate investment assets among: individual equities (stocks), debt (bonds), mutual funds, institutional and/or investor class funds, sub-advisers, exchange traded notes (“ETNs”) and/or exchange traded funds (“ETFs”), on a discretionary basis in accordance with the client’s designated investment objective(s). The Registrant may also allocate the discretionary management of client investment assets to sub-advisers as described in Item 4.B. below, or among one or more of its asset allocation models as described in Item 8.C. below. To a limited extent when appropriate, the Registrant may also recommend that clients consider allocations to private investment funds on a non-discretionary basis. Once client investment assets are allocated, the Registrant provides ongoing monitoring and review of account performance and asset allocation as compared to client-designated

investment objectives and may execute or recommend executing account transactions as a result of those reviews.

FINANCIAL PLANNING AND CONSULTING SERVICES (STAND-ALONE)

To the extent requested by a client, the Registrant may also provide financial planning and/or consulting services (including investment and non-investment related matters, including estate planning, tax planning, insurance planning, etc.) on a stand-alone separate fee basis.

Before engaging the Registrant to provide stand-alone planning or consulting services, clients are required to enter into a Financial Planning and Consulting Agreement with Registrant setting forth the terms and conditions of the engagement (including termination), describing the scope of the services to be provided, and the portion of the fee that is due from the client before Registrant commences services. If requested by the client, Registrant may recommend the services of other professionals for implementation purposes. The client is under no obligation to engage the services of any such recommended professional. The client retains absolute discretion over all such implementation decisions and is free to accept or reject any recommendation from the Registrant. If the client engages any such recommended professional, and a dispute arises thereafter relative to such engagement, the client agrees to seek recourse exclusively from and against the engaged professional. It remains the client's responsibility to promptly notify the Registrant if there is ever any change in their financial situation or investment objectives for the purpose of reviewing, evaluating, or revising Registrant's previous recommendations and/or services.

RETIREMENT PLAN CONSULTING SERVICES

The Registrant also provides non-discretionary retirement plan consulting services, pursuant to which it assists sponsors of self-directed retirement plans and defined benefit plans with the selection and/or monitoring of investment alternatives from which plan participants shall choose in self-directing the investments for their individual plan retirement accounts. In addition, to the extent requested by the plan sponsor, the Registrant may also provide participant education designed to assist participants in identifying the appropriate investment strategy for their retirement plan accounts. The terms and conditions of the engagement shall generally be set forth in a Retirement Plan Services Agreement between the Registrant and the plan sponsor.

MISCELLANEOUS

Limitations of Non-Investment Consulting/Implementation Services. If requested by the client, the Registrant may recommend the services of other professionals for certain non-investment implementation purposes (i.e. attorneys, accountants, insurance, etc.). The Registrant does not serve as a law firm, accounting firm, or insurance agency, and no portion of Registrant's services should be construed as legal, accounting, or insurance implementation services. Accordingly, Registrant does not prepare estate planning documents, tax returns or sell insurance products. To the extent requested by a client, Registrant may recommend the services of other professionals for certain non-investment implementation purposes (i.e. attorneys, accountants, insurance agents, etc.) including entities under common control with Registrant to provide accounting services, and Registrant's representative, in her separate and individual capacity as an insurance agent to purchase insurance products on a commission basis as described in Item 10.C. below. Clients are reminded that they are under no obligation to engage the services of any such

recommended entity or professional. The client retains absolute discretion over all such implementation decisions and is free to accept or reject any recommendation made by Registrant or its representatives. If the client engages any recommended entity or professional, and a dispute arises thereafter relative to such engagement, the client agrees to seek recourse exclusively from and against the engaged entity or professional. The preceding sentence shall not limit or waive any applicable rights under federal or state law, including securities laws and fiduciary obligations that cannot be limited or waived.

Sub-Adviser Arrangements. The Registrant may engage sub-advisers to manage a portion of client accounts. Each sub-adviser will have discretionary authority for the day-to-day management of the assets that are allocated to it by the Registrant. The Registrant generally considers the following factors when evaluating sub-advisers for client engagements: the client's designated investment objective, management style, performance, reputation, financial strength, reporting, pricing, and research. The sub-adviser will continue in such capacity until such arrangement is terminated or modified by the Registrant. The Registrant will render ongoing and continuous advisory services to the sub-advised account including monitoring and review of account performance. The investment management fee paid by the client to the sub-adviser: is disclosed to the client before sub-adviser is engaged; and is separate form, and in addition to, Registrant's advisory fee as set forth in Item 5.

Unaffiliated Private Investment Funds. The Registrant may recommend that its clients consider the purchase of unaffiliated private investment funds on a non-discretionary basis. The Registrant's role relative to the unaffiliated private investment funds shall be limited to its initial and ongoing due diligence and investment monitoring services. If a client determines to become a private fund investor, the amount of assets invested in the fund(s) shall be included for purposes of Registrant calculating its annual investment advisory fee. Registrant's clients are under absolutely no obligation to consider or make an investment in a private investment fund(s). Please Note: Private investment funds generally involve various risk factors, including, but not limited to, potential for complete loss of principal, liquidity constraints and lack of transparency, a complete discussion of which is set forth in each fund's offering documents, which will be provided to each client for review and consideration. Unlike liquid investments that a client may maintain, private investment funds do not provide daily liquidity or pricing. Each prospective client investor will be required to complete a Subscription Agreement, pursuant to which the client shall establish that he/she is qualified for investment in the fund, and acknowledges and accepts the various risk factors that are associated with such an investment. Please Also Note: Valuation. In the event that the Registrant references private investment funds owned by the client on any supplemental account reports prepared by the Registrant, the value(s) for all private investment funds owned by the client shall reflect the most recent valuation provided by the fund sponsor. If the fund sponsor does not provide a post-purchase valuation, then the valuation shall reflect the initial purchase price (and/or a value as of a previous date) or the current value(s) (either the initial purchase price and/or the most recent valuation provided by the fund sponsor). If the valuation reflects the initial purchase price (and/or a value as of a previous date), then the current value(s) (to the extent ascertainable) could be significantly more or less than the original purchase price. The client's advisory fee shall be based upon such reflected fund value(s).

Investment Risk. Different types of investments involve varying degrees of risk, and it should not be assumed that future performance of any specific investment or investment strategy (including the investments and/or investment strategies recommended or undertaken by Registrant) will be profitable or equal any specific performance level(s).

Client Obligations. In performing its services, Registrant shall not be required to verify any information received from the client or from the client's other professionals, and is expressly authorized to rely thereon. Moreover, each client is advised that it remains their responsibility to promptly notify the Registrant if there is ever any change in their financial situation or investment objectives for the purpose of reviewing, evaluating, or revising Registrant's previous recommendations and/or services.

Disclosure Statement. A copy of the Registrant's written Brochure as set forth on Part 2 of Form ADV shall be provided to each client before, or contemporaneously with, the execution of the Investment Advisory Agreement.

Non-Discretionary Service Limitations. Clients that determine to engage Registrant on a non-discretionary investment advisory basis must be willing to accept that Registrant cannot effect any account transactions without obtaining prior consent to such transaction(s) from the client. Thus, in the event that Registrant would like to make a transaction for a client's account (including in the event of an individual holding or general market correction), and the client is unavailable, the Registrant will be unable to effect the account transaction(s) (as it would for its discretionary clients) without first obtaining the client's consent.

eMoney Advisor Platform. Registrant may provide its clients with access to an online platform hosted by "eMoney Advisor" ("eMoney"). The eMoney platform allows a client to view their complete asset allocation, including those assets that Registrant does not manage (the "Excluded Assets"). Registrant does not provide investment management, monitoring, or implementation services for the Excluded Assets. Therefore, Registrant shall not be responsible for the investment performance of the Excluded Assets. Rather, the client and/or their advisor(s) that maintain management authority for the Excluded Assets, and not Registrant, shall be exclusively responsible for such investment performance. The client may choose to engage Registrant to manage some or all of the Excluded Assets pursuant to the terms and conditions of an Investment Advisory Agreement between Registrant and the client. The eMoney platform also provides access to other types of information, including financial planning concepts, which should not, in any manner whatsoever, be construed as services, advice, or recommendations provided by Registrant. Finally, Registrant shall not be held responsible for any adverse results a client may experience if the client engages in financial planning or other functions available on the eMoney platform without Registrant's assistance or oversight.

Availability of Mutual Funds and Exchange Traded Funds: While the Registrant may allocate investment assets to mutual funds and ETFs that are not available directly to the public, the Registrant may also allocate investment assets to publicly-available mutual funds and ETFs that the client could obtain without engaging Registrant as an investment adviser. However, if a client or prospective client determines to purchase publicly-available mutual funds without engaging Registrant as an investment adviser, the client or prospective client would not receive the benefit of Registrant's initial and ongoing investment advisory services with respect to management of that asset.

Retirement Plan Rollovers – No Obligation / Conflict of Interest. A client or prospective client leaving an employer has four options regarding an existing retirement plan (and may engage in a combination of these options): (i) leave the money in the former employer’s plan, if permitted, (ii) roll over the assets to the new employer’s plan, if one is available and rollovers are permitted, (iii) roll over to an Individual Retirement Account (“IRA”), or (iv) cash out the account value (which could, depending upon the client’s age, result in adverse tax consequences). If the Registrant recommends that a client roll over their retirement plan assets into an account to be managed by the Registrant, such a recommendation creates a conflict of interest if the Registrant will earn a new (or increase its current) advisory fee as a result of the rollover. No client is under any obligation to roll over retirement plan assets to an account managed by Registrant. The Registrant’s Chief Compliance Officer, Robert W. Joel, remains available to address any questions that a client or prospective client may have regarding the conflict of interest presented by such a rollover recommendation.

Portfolio Activity. Registrant has a fiduciary duty to provide services consistent with the client’s best interest. As part of its investment advisory services, Registrant will review client portfolios on an ongoing basis to determine if any changes are necessary based upon various factors, including but not limited to investment performance, financial circumstances, and changes in the client’s investment objectives. Based upon these and other factors, there may be extended periods of time when Registrant determines that changes to a client’s portfolio are neither necessary nor prudent. Notwithstanding, there can be no assurance that investment decisions made by Registrant will be profitable or equal any specific performance level(s).

Cash Positions. The Registrant may maintain cash and cash equivalent positions (such as money market funds) for defensive and liquidity purposes. Unless otherwise agreed in writing, all cash and cash equivalent positions will be included as part of assets under management for purposes of calculating the Registrant’s investment advisory fee.

- C. The Registrant shall provide investment advisory services specific to the needs of each client. Before providing investment advisory services, an investment adviser representative will ascertain each client’s investment objective(s). Thereafter, the Registrant shall allocate and/or recommend that the client allocate investment assets consistent with the designated investment objective(s). The client may, at any time, impose reasonable restrictions, in writing, on the Registrant’s services.
- D. The Registrant does not participate in a wrap fee program.
- E. As of December 31, 2018, the Registrant had \$113,421,919 in assets under management on a discretionary basis.

Item 5 Fees and Compensation

A. INVESTMENT ADVISORY SERVICES

The client can engage the Registrant on a negotiable fee basis to provide discretionary and/or non-discretionary investment advisory services including general financial planning and consulting services. The Registrant's annual investment advisory fee shall be based upon a percentage (%) of the market value and type of assets placed under the Registrant's management, generally between 0.50% and 1.50% on a tiered basis as follows:

<u>Market Value of Portfolio</u>	<u>Annual Fee %</u> *
Assets between \$0 and \$250,000	1.50%
Assets between \$250,001 and \$3,000,000	1.00%*
Additional Assets between \$3,000,001 and \$5,000,000	0.75%
Additional Assets above \$5,000,000	0.50%

* Subject to the terms and conditions of the applicable Agreement: Clients maintaining assets between \$250,001 and \$3,000,000 under Registrant's management will generally only be charged 1.00% for the value of all such assets under management, instead of 1.50% of the value of assets between \$0 and \$250,000 and 1.00% of the value of assets between \$250,001 and \$3,000,000. All other investment advisory fees will generally be applied on a tiered basis as described above.

To the extent that client assets are allocated to one or more sub-advisers, the investment management fee paid to such sub-adviser(s) generally ranges between 0.50% and 0.75% of the value of assets allocated to such sub-adviser(s). The investment management fee paid by the client to the sub-adviser: is disclosed to the client before sub-adviser is engaged; and is separate form, and in addition to, Registrant's advisory fee as set forth above.

FINANCIAL PLANNING AND CONSULTING SERVICES (STAND-ALONE)

The Registrant may determine to provide financial planning and/or consulting services (including investment and non-investment related matters, including estate planning, insurance planning, etc.) on a stand-alone fee basis. Registrant's financial planning and consulting fees are non-negotiable and generally range from \$200 to \$400 on an hourly rate basis, depending upon the level and scope of the service(s) required and the professional(s) rendering the service(s).

RETIREMENT PLAN CONSULTING SERVICES

The Registrant also provides non-discretionary retirement plan consulting services, pursuant to which it assists sponsors of self-directed retirement plans and defined benefit plans with the selection and/or monitoring of investment alternatives (generally open-end mutual funds) from which plan participants shall choose in self-directing the investments for their individual plan retirement accounts. The terms and conditions of the engagement shall generally be set forth in a Retirement Plan Services Agreement between the Registrant and the plan sponsor. The Registrant charges an annual fee for non-discretionary retirement plan consulting services which ranges from 0.50% to 1.50% of plan assets depending on the services requested and the size of the plan.

- B. Clients may elect to have the Registrant’s investment advisory fees and retirement plan consulting fees deducted from their custodial account. Registrant’s Investment Advisory Agreement, Retirement Plan Services Agreement, and the applicable custodial/clearing agreement may authorize the custodian to debit the account for the amount of the Registrant’s investment advisory fee and to directly remit that fee to the Registrant in compliance with regulatory procedures. In the limited event that the Registrant bills the client directly for those services, payment is due upon receipt of the Registrant’s invoice. The Registrant shall deduct investment advisory fees and retirement plan consulting fees or bill clients quarterly in advance, based upon the market value of the assets on the last business day of the previous quarter. The Registrant shall bill clients directly for financial planning and/or consulting services, half of which shall be payable upon execution of the Financial Planning and Consulting Agreement and the other half of which shall be payable upon delivery of the financial plan to the client.
- C. As discussed below, unless the client directs otherwise or an individual client’s circumstances require, the Registrant shall generally recommend that Fidelity Brokerage Services LLC and its affiliates (“Fidelity”), serve as the broker-dealer/custodian for client investment advisory assets. Broker-dealers such as Fidelity charge brokerage commissions and/or transaction fees for effecting certain securities transactions (i.e. transaction fees are charged for certain no-load mutual funds, commissions are charged for individual equity and fixed income securities transactions). In addition to Registrant’s investment advisory fee, brokerage commissions and/or transaction fees, clients will also incur, relative to all mutual fund and ETF purchases, charges imposed at the fund level (e.g. management fees and other fund expenses). The fees charged by the applicable broker-dealer/custodian, and the charges imposed at the fund level, are in addition to Registrant’s investment advisory fees referenced in this Item 5.
- D. The Registrant’s annual investment advisory fee shall be prorated and paid quarterly in advance, based upon the market value of the assets on the last business day of the previous quarter. The applicable form of agreement between the Registrant and the client will continue in effect until terminated by either party by written notice in accordance with the terms of such agreement. Upon termination of the Investment Advisory Agreement or the Retirement Plan Services Agreement, the Registrant shall refund the pro-rated portion of the advanced advisory fee paid based upon the number of days remaining in the billing quarter. If the Financial Planning and Consulting Agreement is terminated before the Registrant presents the financial plan to the client: the Registrant will refund any unearned, pre-paid portion of the fee that was advanced by the Client; or the Registrant will bill the client directly for outstanding fees incurred for services rendered.
- E. Neither the Registrant, nor its representatives accept compensation from the sale of securities or other investment products.

Item 6 Performance-Based Fees and Side-by-Side Management

Neither the Registrant nor any supervised person of the Registrant accepts performance-based fees.

Item 7 Types of Clients

The Registrant's clients generally include individuals, high net worth individuals, pension & profit sharing plans, trusts, estates, corporations or other businesses. The Registrant does not impose a formal minimum account size or minimum fee requirement to provide investment advisory services.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

- A. The Registrant may utilize the following methods of security analysis:
- Charting - (analysis performed using patterns to identify current trends and trend reversals to forecast the direction of prices);
 - Fundamental - (analysis performed on historical and present data, with the goal of making financial forecasts);
 - Technical – (analysis performed on historical and present data, focusing on price and trade volume, to forecast the direction of prices); and/or
 - Cyclical – (analysis performed on historical relationships between price and market trends, to forecast the direction of prices).

The Registrant may utilize the following investment strategies when implementing investment advice given to clients:

- Long Term Purchases (securities held at least a year);
- Short Term Purchases (securities sold within a year); and/or
- Trading (securities sold within thirty (30) days).

Investment Risk. Investing in securities involves risk of loss that clients should be prepared to bear, including the complete loss of principal investment. Past performance may not be indicative of future results. Different types of investments involve varying degrees of risk, and it should not be assumed that future performance of any specific investment or investment strategy (including the investments and/or investment strategies recommended or undertaken by Registrant) will be profitable or equal any specific performance level(s). Investment strategies such as asset allocation, diversification, or rebalancing do not assure or guarantee better performance and cannot eliminate the risk of investment losses. There is no guarantee that a portfolio employing these or any other strategy will outperform a portfolio that does not engage in such strategies. While asset values may increase and client account values could benefit as a result, it is also possible that asset values may decrease and client account values could suffer a loss.

- B. The Registrant's methods of analysis and investment strategies do not present any significant or unusual risks. However, every method of analysis has its own inherent risks. To perform an accurate market analysis the Registrant must have access to current/new market information. The Registrant has no control over the dissemination rate of market information; therefore, unbeknownst to the Registrant, certain analyses may be compiled with outdated market information, severely limiting the value of the Registrant's analysis. Furthermore, an accurate market analysis can only produce a forecast of the direction of market values. There can be no assurances that a forecasted change in market value will materialize into actionable and/or profitable investment opportunities.

The Registrant's primary investment strategies (Long Term Purchases; Short Term Purchases; and Trading) are fundamental investment strategies. However, every investment strategy has its own inherent risks and limitations. For example, longer term investment strategies require a longer investment time period to allow for the strategy to potentially develop. Shorter term investment strategies require a shorter investment time period to potentially develop but, as a result of more frequent trading, may incur higher transactional costs when compared to a longer term investment strategy. Trading, an investment strategy that requires the purchase and sale of securities within a thirty (30) day investment time period, involves a very short investment time period but will incur higher transaction costs when compared to a short term investment strategy and substantially higher transaction costs than a longer term investment strategy.

- C. Registrant recommends asset allocations based on a particular client's: economic situation, liquidity needs, risk tolerance, proposed investment period, need for diversification, reliance upon current income, present and anticipated tax situation. Registrant also considers historical yields, potential appreciation and marketability before making investment recommendations. Registrant recommends and manages many types of asset allocations, including: individual equities (stocks), debt (bonds), mutual funds, sub-advisers, ETNs and/or ETFs, on a discretionary and/or non-discretionary basis in accordance with the client's designated investment objective(s). To a limited extent when appropriate, the Registrant may also recommend that clients consider allocations to private investment funds. Please refer to Item 4.B. with respect to the particular risks and limitations involved with private investment funds. Each type of security has its own unique set of risks associated with it, and it would not be possible to describe the specific risks of every type of investment. However, the following provides a short description of some of the underlying risks associated with investing in the types of securities to which Registrant allocates client investment assets:

Market Risk. The price of a security may drop in reaction to tangible and intangible events and conditions. This type of risk may be caused by external factors (such as economic or political factors), but may also be incurred because of a security's specific underlying investments. Additionally, each security's price can fluctuate based on market movement, which may or may not be due to the security's operations or changes in its true value. For example, political, economic and social conditions may trigger market events which are temporarily negative, or temporarily positive.

Unsystematic Risk. Unsystematic risk is the company-specific or industry-specific risk in a portfolio that the investor bears. Unsystematic risk is typically addressed through diversification. However, as indicated above, diversification does not guarantee better performance and cannot eliminate the risk of investment losses.

Value Investment Risk. Value stocks may perform differently from the market as a whole and following a value-oriented investment strategy may cause a portfolio to underperform growth stocks.

Growth Investment Risk. Prices of growth stocks tend to be higher in relation to their companies' earnings and may be more sensitive to market, political and economic developments than other stocks, making their prices more volatile.

Small Company Risk. Securities of small companies are often less liquid than those of large companies and this could make it difficult to sell a small company security at a desired time or price. As a result, small company stocks may fluctuate relatively more in price. In general, small capitalization companies are more vulnerable than larger companies to adverse business or economic developments and they may have more limited resources.

Commodity Risk. The value of commodity-linked derivative instruments may be affected by changes in overall market movements, commodity index volatility, changes in interest rates, or factors affecting a particular industry or commodity, such as drought, floods, weather, livestock disease, embargoes, tariffs, and international economic, political, and regulatory developments.

Foreign Securities and Currencies Risk. Foreign securities prices may decline or fluctuate because of: (i) economic or political actions of foreign governments, and/or (ii) less regulated or liquid securities markets. Investors holding these securities are also exposed to foreign currency risk (the possibility that foreign currency will fluctuate in value against the U.S. dollar).

Interest Rate Risk. Fixed income securities and fixed income-based securities are subject to interest rate risk because the prices of fixed income securities tend to move in the opposite direction of interest rates. When interest rates rise, fixed income security prices tend to fall. When interest rates fall, fixed income security prices tend to rise. In general, fixed income securities with longer maturities are more sensitive to these price changes.

Inflation Risk. When any type of inflation is present, a dollar at present value will not carry the same purchasing power as a dollar in the future, because that purchasing power erodes at the rate of inflation.

Reinvestment Risk. Future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate), which primarily relates to fixed income securities.

Credit Risk. The issuer of a security may be unable to make interest payments and/or repay principal when due. A downgrade to an issuer's credit rating or a perceived change in an issuer's financial strength may affect a security's value and impact performance. Credit risk is considered greater for fixed income securities with ratings below investment grade. Fixed income securities that are below investment grade involve higher credit risk and are considered speculative.

Call Risk. During periods of falling interest rates, a bond issuer will call or repay a higher-yielding bond before its maturity date, forcing the investment to reinvest in bonds with lower interest rates than the original obligations.

Regulatory Risk. Changes in laws and regulations from any government can change the market value of companies subject to such regulations. Certain industries are more susceptible to government regulation. For example, changes in zoning, tax structure or laws may impact the return on investments.

Sub-Adviser Risk. While Registrant may conduct due diligence regarding Sub-advisers and their respective investment style and process, Registrant will not have the opportunity to evaluate each specific investment that the Sub-advisers will execute on the client's behalf. As a result, the allocated investment performance will primarily depend upon the choice of investments and other investment and management decisions of Sub-advisers, which could be adversely affected by those decisions. Further, Registrant depends on Sub-Advisers to develop the appropriate systems and procedures to control operational risks.

The Registrant may also allocate investment assets of its client accounts, on a discretionary basis, among one or more of its asset allocation models. The asset allocation models have been designed to comply with the requirements of Rule 3a-4 of the Investment Company Act of 1940. Rule 3a-4 provides similarly managed investment programs, such as Registrant's asset allocation models, with a non-exclusive safe harbor from the definition of an investment company. In accordance with Rule 3a-4, the following disclosure is applicable to Registrant's management of client assets:

1. Initial Interview – at the opening of the account, the Registrant, through its designated representatives, shall obtain from the client information sufficient to determine the client's financial situation and investment objectives;
2. Individual Treatment - the account is managed on the basis of the client's financial situation and investment objectives;
3. Quarterly Notice – at least quarterly the Registrant shall notify the client to advise the Registrant whether the client's financial situation or investment objectives have changed, or if the client wants to impose and/or modify any reasonable restrictions on the management of the account;
4. Annual Contact – at least annually, the Registrant shall contact the client to determine whether the client's financial situation or investment objectives have changed, or if the client wants to impose and/or modify any reasonable restrictions on the management of the account;
5. Consultation Available – the Registrant shall be reasonably available to consult with the client relative to the status of the account;
6. Quarterly Report – the client shall be provided with a quarterly report for the account for the preceding period;
7. Ability to Impose Restrictions – the client shall have the ability to impose reasonable restrictions on the management of the account, including the ability to instruct the Registrant not to purchase certain securities;
8. No Pooling – the client's beneficial interest in a security does not represent an undivided interest in all the securities held by the custodian, but rather represents a direct and beneficial interest in the securities which comprise the account;
9. Separate Account - a separate account is maintained for the client with the Custodian; and
10. Ownership – each client retains indicia of ownership of the account (e. g. right to withdraw securities or cash, exercise or delegate proxy voting, and receive transaction confirmations).

The Registrant believes that its annual investment advisory fee is reasonable in relation to: (1) the advisory services provided under the Investment Advisory Agreement; and (2) the fees charged by other investment advisers offering similar services/programs. However, Registrant's annual investment advisory fee may be higher than that charged by other investment advisers offering similar services/programs. In addition to

Registrant's annual investment advisory fee, the client will also incur charges imposed directly at the mutual and exchange traded fund level (e.g., management fees and other fund expenses). Registrant's investment allocation models may involve above-average portfolio turnover, which could negatively impact upon the net after-tax gain experienced by an individual client in a taxable account.

A brief description of each of Registrant's asset allocation models follows. Please note that all allocations and model compositions are subject to change at the Registrant's discretion based upon market conditions:

Growth and Income: This model is appropriate for investors who primarily seek long term capital appreciation with a secondary interest in the generation of current income. Moderate annual fluctuation of principal is expected and acceptable. It will generally be comprised of actively managed mutual funds and may at times contain passively managed mutual funds and exchange traded funds.

Income and Growth: This model is appropriate for investors who primarily seek the generation of current income with a secondary interest in long term capital appreciation. Modest annual fluctuation of principal is expected and acceptable. It will generally be comprised of actively managed mutual funds and may at times contain passively managed mutual funds and exchange traded funds.

Item 9 Disciplinary Information

The Registrant has not been the subject of a disciplinary action.

Item 10 Other Financial Industry Activities and Affiliations

- A. Neither the Registrant, nor its representatives, are registered or have an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.
- B. Neither the Registrant, nor its representatives, are registered or have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading advisor, or a representative of the foregoing.
- C. Certified Public Accountants. Certain of Registrant's representatives are also members, owners, or employees of Certified Public Accounting Firms ("CPA Firms"). To the extent that these CPA Firms provide accounting and/or tax preparation services to any clients, including clients of Registrant, all such services shall be performed independent of the Registrant. These CPA Firms do not provide or hold themselves out as providing investment advice on behalf of Registrant. It is also expected that certain of Registrant's representatives, solely incidental to their respective practices as Certified Public Accountants, shall recommend Registrant's services to clients.

Conflict of Interest: The recommendation by Registrant or any of its representatives that clients engage the CPA Firms or the Certified Public Accountants who are also investment adviser representatives of the Registrant to provide accounting and/or tax preparation services presents a conflict of interest, as Registrant's representatives could have a financial incentive to recommend those services. No client is under any obligation to engage these CPA Firms or Certified Public Accountants, and clients are reminded that

they may engage other non-affiliated Certified Public Accountants / Certified Public Accounting Firms to provide such services. Registrant's Chief Compliance Officer, Robert W. Joel, remains available to address any questions that a client or prospective client may have regarding the above arrangements and any corresponding perceived conflict of interest such arrangements may create.

Licensed Insurance Agent. Registrant's representative, Sonja Elia, is a licensed insurance agent in her separate and individual capacity who may recommend the purchase of certain insurance-related products on a commission basis. As referenced in Item 4.B above, clients can therefore engage her to purchase insurance products on a commission basis.

Conflict of Interest: The recommendation by Registrant's representatives that a client purchase a securities or insurance commission product through Ms. Elia presents a conflict of interest, as the receipt of commissions may provide an incentive to recommend investment products based on commissions to be received, rather than on a particular client's need. No client is under any obligation to purchase any commission products from Registrant's representative. Clients are reminded that they may purchase securities or insurance products recommended by Registrant through other, non-affiliated insurance agents. Registrant's Chief Compliance Officer, Robert W. Joel, remains available to address any questions that a client or prospective client may have regarding the above arrangements and any corresponding perceived conflict of interest such arrangements may create.

- D. The Registrant does not recommend or select other investment advisors for its clients for which it receives direct or indirect compensation.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

- A. The Registrant maintains an investment policy relative to personal securities transactions. This investment policy is part of Registrant's overall Code of Ethics, which serves to establish a standard of business conduct for all of Registrant's Representatives that is based upon fundamental principles of openness, integrity, honesty and trust, a copy of which is available upon request.

In accordance with Section 204A of the Investment Advisers Act of 1940, the Registrant also maintains and enforces written policies reasonably designed to prevent the misuse of material non-public information by the Registrant or any person associated with the Registrant.

- B. Neither the Registrant nor any related person of Registrant recommends, buys, or sells for client accounts, securities in which the Registrant or any related person of Registrant has a material financial interest.
- C. The Registrant and/or representatives of the Registrant may buy or sell securities that are also recommended to clients. This practice may create a situation where the Registrant and/or representatives of the Registrant are in a position to materially benefit from the sale or purchase of those securities. Therefore, this situation presents a conflict of interest. Practices such as "scalping" (i.e., a practice whereby the owner of shares of a security recommends that security for investment and then immediately sells it at a profit

upon the rise in the market price which follows the recommendation) could take place if the Registrant did not have adequate policies in place to detect such activities. In addition, this requirement can help detect insider trading, “front-running” (i.e., personal trades executed before those of the Registrant’s clients) and other potentially abusive practices.

The Registrant has a personal securities transaction policy in place to monitor the personal securities transactions and securities holdings of each of the Registrant’s “Access Persons.” The Registrant’s securities transaction policy requires that Access Person of the Registrant must provide the Chief Compliance Officer or his/her designee with a written report of the their current securities holdings within ten (10) days after becoming an Access Person. Furthermore, Access Persons must provide the Chief Compliance Officer with a quarterly transaction report, detail all trades in the Access Person’s account during the previous quarter; and on an annual basis, each Access Person must provide the Chief Compliance Officer with a written report of the Access Person’s current securities holdings. However, at any time that the Registrant has only one Access Person, he or she shall not be required to submit any securities report described above.

- D. The Registrant and/or representatives of the Registrant may buy or sell securities, at or around the same time as those securities are recommended to clients. This practice creates a situation where the Registrant and/or representatives of the Registrant are in a position to materially benefit from the sale or purchase of those securities. Therefore, this situation presents a conflict of interest. As indicated above in Item 11C, the Registrant has a personal securities transaction policy in place to monitor the personal securities transaction and securities holdings of each of Registrant’s Access Persons.

Item 12 Brokerage Practices

- A. In the event that the client requests that the Registrant recommend a broker-dealer/custodian for execution and/or custodial services (exclusive of those clients that may direct the Registrant to use a specific broker-dealer/custodian), Registrant generally recommends that investment advisory accounts be maintained at Fidelity. Before engaging Registrant to provide investment advisory services, the client will be required to enter into a formal Investment Advisory Agreement with Registrant setting forth the terms and conditions under which Registrant shall manage the client’s assets, and a separate custodial/clearing agreement with each designated broker-dealer/ custodian.

Factors that the Registrant considers in recommending Fidelity (or any other broker-dealer/custodian) to clients include: historical relationship with the Registrant, financial strength, reputation, execution capabilities, pricing, research, and service. Although the commissions and/or transaction fees paid by Registrant’s clients shall comply with the Registrant’s duty to seek best execution, a client may pay a commission that is higher than another qualified broker-dealer might charge to effect the same transaction where the Registrant determines, in good faith, that the commission/transaction fee is reasonable. In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of broker-dealer services, including the value of research provided, execution capability, commission rates, and responsiveness. Accordingly, although Registrant will seek competitive rates, it may not necessarily obtain the lowest possible commission rates for client account transactions. The brokerage commissions or

transaction fees charged by the designated broker-dealer/custodian are exclusive of, and in addition to, Registrant's investment advisory fee.

1. Non-Soft Dollar Research and Additional Benefits

Although not a material consideration when determining whether to recommend that a client utilize the services of a particular broker-dealer/custodian, Registrant receives from Fidelity (or could receive from other broker-dealer/custodians, unaffiliated investment managers, vendors, investment platforms, and/or product/fund sponsors) without cost (and/or at a discount) support services and/or products, certain of which assist the Registrant to better monitor and service client accounts maintained at such institutions. The support services that Registrant receives can include: investment-related research, pricing information and market data, software and other technology that provide access to client account data, compliance and/or practice management-related publications, discounted or free consulting services, discounted and/or free travel and attendance at conferences, meetings, and other educational and/or social events, marketing support, computer hardware and/or software and/or other products used by Registrant in furtherance of its investment advisory business operations. As referenced above, certain of the support services and/or products that Registrant can receive may assist the Registrant in managing and administering client accounts. Others do not directly provide such assistance, but rather assist the Registrant to manage and further develop its business enterprise. The receipt of these support services and products presents a conflict of interest, because the Registrant has the incentive to recommend that clients utilize Fidelity as a broker-dealer/custodian based upon its interest in continuing to receive the above-described support services and products, rather than based on a client's particular need. However, Registrant's clients do not pay more for investment transactions effected and/or assets maintained at Fidelity as a result of this arrangement. There is no corresponding commitment made by the Registrant to Fidelity or any other entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as a result of the above arrangement. Registrant's Chief Compliance Officer, Robert W. Joel, remains available to address any questions that a client or prospective client may have regarding the above arrangement and the conflict of interest presented.

2. The Registrant does not receive referrals from broker-dealers.
3. The Registrant does not generally accept directed brokerage arrangements (when a client requires that account transactions be effected through a specific broker-dealer). In such client directed arrangements, the client will negotiate terms and arrangements for their account with that broker-dealer, and Registrant will not seek better execution services or prices from other broker-dealers or be able to "batch" the client's transactions for execution through other broker-dealers with orders for other accounts managed by Registrant. As a result, clients may pay higher commissions or other transaction costs or greater spreads, or receive less favorable net prices, on transactions for the account than would otherwise be the case.

If the client directs Registrant to effect securities transactions for the client's accounts through a specific broker-dealer, the client correspondingly acknowledges that such direction may cause the accounts to incur higher commissions or transaction costs than the accounts would otherwise incur had the client determined to effect account

transactions through alternative clearing arrangements that may be available through Registrant. Higher transaction costs adversely impact account performance.

- B. To the extent that the Registrant provides investment advisory services to its clients, the transactions for each client account generally will be effected independently, unless the Registrant decides to purchase or sell the same securities for several clients at approximately the same time. The Registrant may (but is not obligated to) combine or “bunch” such orders to seek best execution, to negotiate more favorable commission rates or to allocate equitably among the Registrant’s clients differences in prices and commissions or other transaction costs that might have been obtained had such orders been placed independently. Under this procedure, transactions will be averaged as to price and will be allocated among clients in proportion to the purchase and sale orders placed for each client account on any given day. The Registrant shall not receive any additional compensation or remuneration as a result of such aggregation.

Item 13 Review of Accounts

- A. For those clients to whom Registrant provides investment supervisory services, account reviews are conducted on an ongoing basis by the Registrant’s investment adviser representatives and/or Chief Compliance Officer. All investment supervisory clients are advised that it remains their responsibility to advise the Registrant of any changes in their investment objectives and/or financial situation. All clients (in person or via telephone) are encouraged to review financial planning issues (to the extent applicable), investment objectives and account performance with the Registrant on an annual basis.
- B. The Registrant may conduct account reviews on an other-than periodic basis upon the occurrence of a triggering event, such as a change in client investment objectives and/or financial situation, market corrections and client request.
- C. Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the broker-dealer/custodian and/or program sponsor for the client accounts. The Registrant may also provide a written periodic report summarizing account activity and performance.

Item 14 Client Referrals and Other Compensation

- A. As referenced in Item 12.A.1 above, the Registrant receives economic benefits from Fidelity (or could receive from other broker-dealer/custodians, unaffiliated investment managers, investment platforms, and/or mutual fund sponsors), such as support services and/or products without cost or at a discount.

Registrant’s clients do not pay more for investment transactions effected and/or assets maintained at a broker-dealer/custodian as a result of this arrangement. There is no corresponding commitment made by the Registrant to a broker-dealer/custodian or any other entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as a result of the above arrangement. The Registrant’s Chief Compliance Officer, Robert W. Joel, remains available to address any questions that a client or prospective client may have regarding the above arrangements.

- B. If a client is introduced to the Registrant by either an unaffiliated or an affiliated solicitor, Registrant may pay that solicitor a referral fee in accordance with the requirements of Rule 206(4)-3 of the Investment Advisers Act of 1940 , and any corresponding state securities law requirements. Any such referral fee shall be paid solely from the Registrant's investment advisory fee, and shall not result in any additional charge to the client. If the client is introduced to the Registrant by an unaffiliated solicitor, the solicitor, at the time of the solicitation, shall disclose the nature of the solicitor relationship, and shall provide each prospective client with a copy of the Registrant's written Brochure with a copy of the written disclosure statement from the solicitor to the client disclosing the terms of the solicitation arrangement between the Registrant and the solicitor, including the compensation to be received by the solicitor from the Registrant.

Item 15 Custody

The Registrant shall have the ability to have its advisory fee for each client debited by the custodian on a quarterly basis. Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the broker-dealer/custodian and/or program sponsor for the client accounts. The Registrant may also provide a written periodic report summarizing account activity and performance. To the extent that the Registrant provides clients with periodic account statements or reports, the client is urged to compare any statement or report provided by the Registrant with the account statements received from the account custodian. The account custodian does not verify the accuracy of the Registrant's advisory fee calculation.

The Registrant engages in other practices and/or services on behalf of its clients that require disclosure at the Custody section of Part 1 of Form ADV, which practices and/or services are subject to an annual surprise CPA examination in accordance with the requirements of Rule 206(4)-2 under the Investment Advisers Act of 1940 and corresponding state securities law requirements.

Item 16 Investment Discretion

The client can determine to engage the Registrant to provide investment advisory services on a discretionary or non-discretionary basis. Before the Registrant assumes discretionary authority over a client's account, client shall be required to execute an Investment Advisory Agreement, naming the Registrant as client's attorney and agent in fact, granting the Registrant full authority to buy, sell, or otherwise effect investment transactions involving the assets in the client's name found in the discretionary account. Clients who engage the Registrant on a discretionary basis may, at any time, impose restrictions, in writing, on the Registrant's discretionary authority (i.e. limit the types/amounts of particular securities purchased for their account, exclude the ability to purchase securities with an inverse relationship to the market, limit or proscribe the Registrant's use of margin, etc.).

Item 17 Voting Client Securities

- A. The Registrant does not vote client proxies. Clients maintain exclusive responsibility for: (1) directing the manner in which proxies solicited by issuers of securities owned by the client shall be voted, and (2) making all elections relative to any mergers, acquisitions, tender offers, bankruptcy proceedings or other type events pertaining to the client's investment assets.
- B. Clients will receive their proxies or other solicitations directly from their custodian. Clients may contact the Registrant to discuss any questions they may have with a particular solicitation.

Item 18 Financial Information

- A. The Registrant does not solicit fees of more than \$500, per client, six months or more in advance.
- B. The Registrant is unaware of any financial condition that is reasonably likely to impair its ability to meet its contractual commitments relating to its discretionary authority over certain client accounts.
- C. The Registrant has not been the subject of a bankruptcy petition.

Item 19 Requirements for State- Registered Advisors

- A. Charles T. Woolston and Robert W. Joel are the Registrant's management/control persons. For more information about Charles T. Woolston and Robert W. Joel, please refer to the Registrant's ADV Part 2B, Brochure Supplement.
- B. The Registrant is not actively engaged in any other business except as disclosed above.
- C. Neither the Registrant nor its representatives accept performance-based fees.
- D. Neither the Registrant nor its representatives have any reportable disciplinary information.
- E. Neither the Registrant nor its representatives have any relationship or arrangement with any issuer of securities.

ANY QUESTIONS: The Registrant's Chief Compliance Officer, Robert W. Joel, remains available to address any questions that a client or prospective client may have regarding the above disclosures and arrangements.
