

**Investment Strategies**

Atlas Capital offers several Investment strategies to clients. Primarily we use actively managed portfolios encompassing mutual funds, exchange traded funds or money market funds. The investment strategy or strategies for a specific client are based on the client's election of a strategy on the Management Strategy Instruction Form. A brief description of the core strategies is included below. For additional information about Atlas Capital Management and the strategies employed, please refer to the Firm Brochure (FORM ADV Part 2A) available at www.adviserinfo.sec.gov. You may also request a copy of the Firm Brochure at any time by contacting us at (260) 637-2857, emailing us at atlascap@acmc.biz or visiting our website at www.atlascapitalmanagement.com.

FIXED INCOME STRATEGY DESCRIPTIONS

Bond Income	Primary objective of the Bond Income strategy is to provide income with capital gains as a secondary objective. Utilizing a variety of mutual funds, the Bond Income strategy shifts assets among bond investments that concentrate on investing in U.S. treasury bonds, international bonds, corporate bonds, emerging market bonds, floating rate bonds and high yield bonds. The Bond Income strategy could be 100% invested in one sector of the bond market, diversified among multiple sectors, 100% money market or a combination of funds and money market.
Government Long / Short	The Atlas Capital Long/Short Government Bond strategy is a quantitatively based strategy that utilizes multiple uncorrelated tactical strategies and attempts to position assets to benefit from a rising or declining yield curve. The strategy shifts clients' assets between leveraged and/or inverse mutual funds or ETF's that have an objective of benefiting regardless of interest rates. This strategy may hold cash or a money market fund.
Municipal Bonds – High Yield	The Atlas Capital High Yield Municipal Bond strategy has an objective of providing income that is exempt from federal personal income tax with a secondary objective of capital gains. The strategy shifts client assets among a select group of mutual funds and/or ETF's that invest primarily in high yield municipal bonds. This strategy may hold cash or money market fund.
Fixed Income	The Atlas Fixed Income strategy shifts assets among mutual funds and ETF's that concentrate their investments in money market, short-term or long-term treasury bonds, international bonds, corporate bonds, emerging markets bonds, or high yield bonds.

Management Strategy Instruction Form

TACTICAL STRATEGY DESCRIPTIONS	
Classic	The Classic strategy exchanges assets between selected U.S. equity investments (mutual funds or ETF's) and a money market fund. Depending upon market conditions the Classic Strategy could be 100% invested in one investment style, diversified among styles, or 100% money market.
Classic Long / Short	The Classic Long/Short strategy exchanges between large-cap, small-cap, or NASDAQ-100 mutual funds or ETF's when our indicators are positive and Inverse large-cap, inverse small-cap, or inverse NASDAQ-100 mutual funds or ETF's when negative.
Quest	The Quest strategy exchanges assets between selected U.S. equity investments (mutual funds or ETF's) and a money market fund. Depending upon market conditions the Quest strategy could be 100% invested in one investment style, diversified among styles, or 100% money market.
Aviator	The Aviator strategy is a Long/Short /Cash strategy that exchanges assets between selected equity investments that are designed to provide 2X the movement of the NASDAQ-100, inverse 2X of the NASDAQ-100, or 100% cash. Depending upon market conditions the Aviator strategy could be 100% invested in a fund designed to provide 2X the return of the NASDAQ-100, 100% in a fund designed to provide the inverse 2X the return of the NASDAQ-100, or 100% in a money market fund.
Crescendo	The Crescendo strategy is a Long/Short/Cash strategy that exchanges assets between selected equity investments that are designed to provide 2X the movement of the NASDAQ-100 and/or the Russell 2000, inverse 2X of the NASDAQ-100 and/or the Russell 2000, or 100% money market or cash equivalents. The strategy is designed to move freely in and out of positions in "incremental steps". The strategy could be invested 100% in a fund designed to provide 2X the return, including inverse of the NASDAQ-100 or Russell 2000, a combination of the two, 100% in money market or invested in various percentages in various investments.
High Yield	The Atlas Capital High Yield strategy shifts client assets among high yield investments and money market accounts. The distribution is adjusted on a continuing basis in response to market and economic conditions, based on the proprietary indicators Atlas has developed. Assets are either 100% invested in high yield funds or ETF's or 100% invested in a money market fund.
High Yield Long / Short	The Atlas Capital High Yield Long/Short strategy shifts clients assets among high yield mutual funds or exchange traded funds (ETF's) when the model is positive and mutual funds or exchange traded funds that seek to provide investment results that correspond generally to the inverse of the total return high yield market consistent with maintaining reasonable liquidity when the model is negative. Assets are either 100% invested in high yield funds or ETF's or 100% invested in Inverse high yield funds or ETF's.
TACTICAL HYBRID STRATEGY DESCRIPTIONS	
Classic-Gold 1X S&P 500	The Classic-Gold 1X S&P 500 strategy is 100% invested in an ETF or mutual fund designed to mirror the S&P 500® Index when model is positive and when the model is negative will move 100% to an ETF or mutual fund designed to mirror the price of gold. The Classic-Gold 1X S&P 500 strategy does not move to money market.
Classic-Gold 2X S&P 500	The Classic-Gold 2X S&P 500 strategy is 100% invested in an ETF or mutual fund designed to provide 200% (2X) results of the daily performance of the S&P 500® index (both positively or negatively) when the model is positive and when the model is negative will move 100% to an ETF or mutual fund designed to mirror the price of gold. The Classic-Gold 2X S&P 500 strategy does not move to money market.
Classic-Gold 1X NASDAQ100	The Classic-Gold 1X NASDAQ 100 strategy is 100% invested in an ETF or mutual fund designed to mirror the NASDAQ 100 index® when model is positive and when the model is negative will move 100% to an ETF or mutual fund designed to mirror the price of gold. The Classic-Gold 1X NASDAQ 100 strategy does not move to money market.
Classic-Gold 2X NASDAQ100	The Classic-Gold 2X NASDAQ 100 strategy is 100% invested in an ETF or mutual fund designed to provide 200% (2X) results of the daily performance of the NASDAQ 100 index® (both positively or negatively) when the model is positive and when the model is negative will move 100% to an ETF or mutual fund designed to mirror the price of gold. The Classic-Gold 2X NASDAQ 100 strategy does not move to money market.
Encore	The Encore strategy is an aggregated multi-asset strategy comprised of five (5) separate models, each independently managed daily and re-balanced monthly to original 20% allocation. Investment options include Long/Short/Cash/Gold. Depending on the model, if the signal is positive, investments would include mutual fund/ETF designed to provide 2X the daily or monthly results of either the NASDAQ 100 index, or the S&P 500 index. Conversely, depending upon the individual models, if the signal is negative, investments would be either a mutual fund/ETF designed to

Management Strategy Instruction Form

	provide -2X (inverse) the daily/monthly results of the NASDAQ 100 index or the S&P 500 index, in a fund or ETF designed to mimic the price of gold, or a money market fund.
TACTICAL TAX-EFFICIENT STRATEGY DESCRIPTIONS	
Elevation	The Elevation strategy is a long-term, growth strategy designed for investors seeking a risk-managed, tax-sensitive portfolio approach with the goal of producing gains that would qualify as long-term for tax purposes, while seeking to avoid the majority of the markets major downturns like those that occurred in 2000-2002 and 2007-2009. The core investments are placed in mutual funds or ETF's that are designed to mirror the various major indices. In certain market environments, a portion of the core holdings will be allocated to mutual funds or ETF's that are designed to produce 2X the return of their underlying indices.
ROTATIONAL STRATEGY DESCRIPTIONS	
Equity Growth	The Equity Growth strategy uses U.S. equity funds or ETF's encompassing a variety of investment objectives including but not limited to aggressive growth, growth, growth & income, equity income and small company. The funds may be large-cap, mid-cap, or small-cap investment styles. These funds invest in U.S. Equity Securities. Has the ability to move to 100% money market fund.
All Funds Growth	The All Funds Growth strategy includes all the funds or ETF's available in the Equity Growth strategy, plus International Equity and Bond funds of all types are included. The International funds are generally considered diversified (not country specific) and the bond funds include all investment strategies including but not limited to government, corporate, international and high yield. The bond funds may have short, medium or long maturity structures. Has the ability to move to 100% money market fund.
TRADITIONAL STRATEGY DESCRIPTIONS	
Perpetual Equity Growth	The Perpetual Equity Growth strategy is an active investment approach that is continuously invested in the U.S. equity market and distributes assets among different investment styles or asset classes within the marketplace. The distribution is adjusted on a continuing basis in response to market and economic conditions, based on the proprietary indicators Atlas has developed. Depending upon market conditions the Perpetual Equity Growth Strategy can be invested in one equity style or diversified among asset classes.
Perpetual World Equity Growth	The Perpetual World Equity Growth strategy is an active investment approach that is continuously invested in the equity markets, United States and/or International, and distributes assets among different investment styles or asset classes within the marketplace. International options may include, but not limited to, World, European, Far East, Latin America, and Emerging Markets. The allocation is adjusted on a continuing basis in response to market and economic conditions, based on the proprietary indicators Atlas has developed. Depending upon market conditions the Perpetual World Equity Growth Strategy can be invested in one equity asset class or diversified among asset classes. This strategy could be 100% invested in the United States markets, 100% internationally, or a combination, depending on market conditions.
NON-TRADITIONAL STRATEGY DESCRIPTIONS	
Alternative	The Alternative strategy uses funds or ETF's encompassing a variety of investment objectives that are considered non-traditional, including but not limited to, natural resources, precious metals, real estate, water, technology, infrastructure, electronics, commodities, communications and energy. The funds may invest in U.S. Securities and/or International Securities. The funds used in this strategy are exclusive of any other Atlas strategy and may be more volatile than other strategies.
Gold	The Atlas Capital Gold strategy is an active strategy that exchanges assets between a money market fund and mutual funds or ETFs that have an objective of mirroring the price of gold. When the Atlas gold model is positive, assets will be in one or more mutual funds and/or ETF's whose objective is to mirror as closely as possible the performance of the price of gold. When the model is negative, the assets will be invested in a money market account.
Silver	The Atlas Capital Silver strategy is an active strategy that exchanges assets between a money market fund and mutual funds or ETFs that have an objective of mirroring the price of silver. When the Atlas Silver model is positive, assets will be in one or more mutual funds and/or ETF's whose objective is to mirror as closely as possible the performance of the price of silver. When the model is negative, the assets will be invested in a money market account.
Oil	The Atlas Capital Oil strategy is an active strategy that exchanges assets between a money market fund and the United States Oil Fund (USO), an ETF that trades on the NYSE Arca Stock exchange. When the Atlas Capital Oil Model is positive the assets are invested in the United States Oil Fund and when the model is negative the assets are moved into a money market fund.

Management Strategy Instruction Form

Precious Metals 1.0X	The Atlas Capital Precious Metals 1.0X strategy is an active strategy that exchanges assets between a money market fund and the Rydex Precious Metals Investor Class Fund (trading symbol RYPMX). When the Atlas Capital Precious Metals model is positive the assets are invested in RYPMX and when the model is negative the assets are moved into a money market fund.
Precious Metals 1.5X	The Atlas Capital Precious Metals 1.5X strategy is an active strategy that exchanges assets between a money market fund and the ProFunds Precious Metals UltraSector Investor Class Fund (trading symbol PMPIX). When the Atlas Precious Metals 1.5X model is positive the assets are invested in PMPIX (a leveraged fund) and when the model is negative the assets are moved into a money market fund.
Precious Metals Long 1.0X / Short 1.0X	The Atlas Capital Precious Metals Long 1.0X / Short -1.0X strategy is an active strategy that exchanges assets between the Rydex Precious Metals Investor Class Fund (trading symbol RYPMX) and the ProFunds Short Precious Metals Investor Class Fund (trading symbol SPPIX). When the Atlas Capital Precious Metals Long 1.0X / Short -1.0X model is positive the assets are invested in RYPMX and when the model is negative the assets are moved to SPPIX (an inverse fund).
Precious Metals Long 1.5X / Short 1.0X	The Atlas Capital Precious Metals Long 1.5X / Short -1.0X strategy is an active strategy that exchanges assets between the ProFunds Precious Metals UltraSector Investor Class Fund (trading symbol PMPIX) and the ProFunds Short Precious Metals Investor Class Fund (trading symbol SPPIX). When the Long 1.5X / Short -1.0X model is positive the assets are invested in PMPIX (a leveraged fund) and when the model is negative the assets are moved to SPPIX (an inverse fund).

BIBLICALLY RESPONSIBLE INVESTING (BRI) STRATEGY DESCRIPTIONS - ALL BRI STRATEGIES USE INVESTMENT OPTIONS FROM FUND FAMILIES THAT INVEST IN COMPANIES WHOSE PRODUCTS AND SERVICES ARE CONSISTENT WITH CHRISTIAN VALUES. FUNDS THAT IMPOSE THESE CONSTRAINTS MAY ELIMINATE SECURITIES OR SECTORS THAT COULD HAVE PROVIDED SUPERIOR RESULTS. THESE CONSTRAINTS COULD CAUSE THESE FUNDS TO SIGNIFICANTLY UNDER PERFORM FUNDS MANAGED WITHOUT THESE CONSTRAINTS.

BRI Bond Income	Primary objective of the BRI Bond Income strategy is to provide income with capital gains as a secondary objective. Utilizing a variety of mutual funds, the BRI Bond Income strategy shifts client assets among bond investments that concentrate on investing in U.S. treasury bonds, international bonds, corporate bonds, emerging market bonds, floating rate bonds and high yield bonds. The BRI Bond Income strategy could be 100% invested in one sector of the bond market, diversified among multiple sectors, 100% money market or a combination of funds and money market.
BRI Classic	The BRI Classic strategy exchanges client assets between selected BRI equity funds or ETF's and a money market fund. Depending upon market conditions, the strategy could be 100% invested in one investment style, diversified among styles, or 100% money market.
BRI Classic-Gold	The BRI Classic-Gold strategy exchanges client assets between selected BRI U.S. equity funds or ETF's and a mutual fund or ETF designed to mirror the price of gold. Depending on market conditions the strategy could be 100% invested in one investment style, diversified among styles, or 100% ETF/mutual fund that mirrors the price of gold.
BRI Quest	The BRI Quest strategy exchanges client assets between selected BRI equity funds or ETF's and a money market fund. Depending on market conditions the strategy could be 100% invested in one investment style, diversified among styles, or 100% money market.
BRI High Yield	The BRI High Yield strategy shifts client assets among selected BRI high yield investments and money market funds. The distribution is adjusted on a continuing basis in response to market and economic conditions, based on the proprietary indicators Atlas has developed. Assets are either 100% invested in BRI high yield funds or ETF's or 100% invested in a money market fund.
BRI Equity Growth	The BRI Equity Growth strategy uses select BRI funds or ETF's encompassing a variety of investment objectives including but not limited to aggressive growth, growth, growth & income, equity income and small company. The funds may be large-cap, mid-cap, or small-cap investment styles. These funds invest in U.S. Securities. Has the ability to move to 100% money market fund.
BRI All Funds Growth	The BRI All Funds Growth strategy includes all the funds or ETF's available in the BRI Equity Growth strategy, plus international equity and bond funds of all types are included. The international funds are generally considered diversified (not country specific) and the bond funds include all investment strategies including but not limited to government, corporate, international and high yield. The bond funds may have short, medium or long maturity structures. Can move to 100% money market.
BRI Perpetual Equity Growth	The BRI Perpetual Equity Growth strategy is an active investment approach that is continuously invested in appropriate BRI U.S. equity market (mutual funds/ETF's) and allocates assets among different investment styles or asset classes within the marketplace. The allocation is adjusted on a continuing basis in response to market and economic conditions, based on the proprietary indicators Atlas has developed. Depending upon market conditions the BRI Perpetual Equity Growth strategy can

Management Strategy Instruction Form

	be invested in one equity style or diversified among asset classes.
BRI Perpetual World Equity Growth	BRI Perpetual World Equity Growth strategy is an active investment approach that is continuously invested in appropriate BRI equity markets, United States and/or International mutual funds/ETF's and allocates assets among different investment styles or asset classes within the marketplace. International options may include, but not limited to, World, European, Far East, Latin America, and Emerging Markets. The allocation is adjusted on a continuing basis in response to market and economic conditions, based on the proprietary indicators Atlas has developed. The BRI Perpetual World Equity Growth Strategy can be invested in one equity asset class or diversified among asset classes. Depending on market conditions, this strategy could be 100% invested in the United States markets, 100% internationally, or a combination.

¹ It is the recommendation of Atlas Capital to limit a client's investing no more than 50% of their investable net worth in the strategies that use these investment options. (Elevation and Alternative are exempt from the 50% recommendation)

² This strategy is not available at all custodians. Please contact Atlas Capital Management directly to confirm availability.

³ This strategy may use leveraged and/or inverse investment options.

⁴ BRI = Biblically Responsible Investing. Funds that impose faith-based values may significantly under-perform funds managed without these constraints. To participate in sharing program please submit the Atlas Sharing Program Designation Form.

⁵ Tax treatment notice – Investing in the Atlas Capital Oil Strategy may result in clients receiving a K-1 in addition to forms 1099-B and 1099-Div

PLEASE NOTE: Applicable only to the BRI strategies, client has the option to participate in the Atlas Capital Management Sharing Program. This program allows clients to designate 10% of Atlas's net advisory fees collected on the portion of their account invested in any or all of the BRI strategies to one church or religious institution of their choice. In order to qualify, a client must be invested in BRI strategy(ies) at the end of the calendar year and have the Atlas Sharing Program Designation Form on file. Payment is made on or around January 31 of the subsequent calendar year. For additional information please consult the firm brochure form ADV Part 2A.

DISCLOSURE PURSUANT TO RULE 206(4)-1 UNDER THE INVESTMENT ADVISERS ACT OF 1940

I have read Atlas Capital Management's Investment Management Agreement in its entirety including the termination section of the document, Atlas Capitals' Firm Brochure (FORM ADV Part 2A); Atlas Capital's Form CRS/Form ADV Part 3 (Client Relationship Summary) and hereby agrees to terms set forth. By execution below, you: (1) acknowledge that your financial professional has discussed with you the above contractual and disclosure information, as well as the potential adverse financial consequences pertaining to such selected strategies; (2) acknowledge that you have read the risk disclosure information in Section 8 of the Investment Management Agreement for strategies that may use leveraged, inverse, gold, silver, precious metals, or oil as investment options; (3) acknowledge the risks associated with the selected strategy(ies) and that there can be no assurance that the strategy(ies) selected will be successful at any given time or over any given period; (4) are prepared to accept any adverse financial consequences resulting from your decision to allocate assets to the strategy(ies); (5) that the use of leveraged, inverse, precious metals, gold, silver, government bonds, or oil investments generally increase the risk of investing in these funds and/or ETFs, especially in volatile markets; (6) understand that regarding the Oil strategy, investments may be made in the United States Oil Fund (USO) which contains numerous risks, such as but not limited to, contract risk, counter-party risk, correlation to benchmark and tax risk, as USO is organized and operated as a limited partnership which has a more complex tax treatment than conventional mutual funds. Investments in USO will result in clients receiving a Schedule K-1 in addition to forms 1099-B and 1099-Div. K-1's are required to be provided by March 15 and may result in a delay in shareholders ability to file their income tax returns prior to receiving this form. K-1's are supplied only to shareholders at their address of record. Additional information may be found at www.uscfinvestments.com/k1-information. (7) agree that Atlas Capital Management shall rely on your above acknowledgments and representations until such time as you (or your below Financial Professional) have advised Atlas Capital Management, in writing, to the contrary; (8) Atlas Capital Management's obligation shall be limited to your assets consistent with the designated strategies; (9) agree to release and hold Atlas Capital Management harmless from any adverse consequences resulting from your decision, including any claim that any such strategy (or combinations thereof) was unsuitable or inappropriate and, (10) **PLEASE NOTE: PRIOR TO EXECUTION.** The adviser remains available to address any questions that the client may have regarding any portion of the above prior to execution by the client. For additional information on any of Atlas Capital Management's strategies, please consult the firm brochure Form ADV Part 2A.
