

Disclaimer

This is an educational and financial analysis tool to assist you by providing concise financial information. This report is a needs analysis of your current situation. It is comprised of separate investment and risk protection informational segments. There is no fee for this information. It is presented as part of a sales presentation. This material does not constitute tax, legal or accounting advice and is not intended or written for such use. Clients interested in these topics should seek advice from an independent professional advisor. The sole purpose of this report is to help you make appropriate transactional decisions about financial products that may help you meet your goals. The reports and graphics are dependent upon the quality and accuracy of data furnished by you.

This analysis is for estimating purposes only and must be reviewed periodically. Past performance is not indicative of future results. Your attorney and accountant should be consulted regarding legal and tax implications. Inclusion of any particular option does not constitute a recommendation of a particular option over any other planning alternative. Other alternatives may be more appropriate for your particular situation. John Hancock Financial Network and its affiliates do not guarantee or express an opinion regarding the accuracy of the system or its content, and will not be liable to any person for any damages arising from the use or misuse of this content, or from any errors or omissions in the same. This content does not attempt to illustrate the precise legal, tax, accounting, or investment consequences of a particular alternative. The precise consequences of a particular alternative depend on many variables, some of which may not be accounted for or fully described in this content. Unless otherwise indicated, the income tax and generation skipping transfer implications of a particular transaction are not reflected in this analysis.

Your own legal and tax advisors should be consulted before you make any estate or business planning decisions (or change title to any assets or change beneficiary designations) to determine (1) the suitability of a particular alternative and (2) the precise legal, tax, investment, and accounting consequences of that alternative. John Hancock Financial Network and its agents do not give legal, tax or accounting advice. This presentation and any other oral or written communications shall not be construed as such.

As a result of this Needs Analysis report, John Hancock Financial Network representatives may recommend insurance or securities products as potential solutions. Clients should carefully review their client data, as summaries based on inaccurate assumptions may impact the analysis results. All growth rates are hypothetical, not guaranteed. This analysis should be used for estimating purposes only. Past performance is not indicative of future results. Your attorney and accountant should be consulted regarding legal and tax implications. A current prospectus must be read carefully when considering any investment in securities.

No liability is assumed from the use of the information contained in this analysis. Responsibility for financial decisions is assumed by you. It is important to revise your strategies periodically in light of your experiences and changing goals.

An Overview of Social Security Benefits

What Is Social Security?

Social Security is a system of social insurance benefits available to all covered workers in the United States. Begun in 1937, the Social Security system covers a wide range of social programs. The term “Social Security,” as it is commonly used, refers to the benefits provided under one part of the system, known by its acronym, OASDI, or Old-Age, Survivors and Disability Insurance.

OASDI benefits are funded primarily by payroll taxes paid by covered employees, employers, and self-employed individuals. Both the OASDI portion of the payroll tax, as well as that part of the tax that goes to finance hospital insurance, HI (Medicare), are provided for under the Federal Insurance Contributions Act, FICA.

Insured Status

To qualify for benefits, a worker must be either “fully” insured or “currently” insured. An insured status is acquired by earning “credits”, based on the wages or self-employment income earned during a year. In 2012, an individual must earn \$1,130 in covered earnings to receive one credit and \$4,520 to earn the maximum of four credits for the year.

A worker generally becomes fully insured by earning 40 credits, typically by working 10 years in covered employment.¹ To be considered currently insured, a worker must have at least six credits in the last 13 calendar quarters, ending with the quarter in which he or she became entitled to benefits.

All benefits are available if a worker is fully insured. Some benefits are not available if the worker is only currently insured. Special requirements apply to disability benefits.

What Benefits Are Available?

- **Worker’s benefit:** This is a monthly income for a retired or disabled worker.
- **Spouse’s benefit:** Refers to monthly income for the spouse or former spouse of a retired or disabled worker.
- **Widow(er)’s benefit:** Refers to monthly retirement income for the surviving spouse or former spouse of a deceased worker.
- **Child’s benefit:** A monthly income for the dependent child of a deceased, disabled, or retired worker. To qualify, a child must be under age 18, or 18 or 19 and a full-time elementary or high school student, or 18 or over and disabled before 22.
- **Mother’s or father’s benefit:** Monthly income paid to a surviving spouse who is caring for a worker’s dependent child who is under age 16 or disabled before age 22. If under age 62, the spouse of a retired worker receives the same benefit.
- **Parent’s benefit:** Monthly income paid to the surviving dependent parent or dependent parents of a deceased worker.

¹ For those working less than 10 years, an alternative test to determine fully-insured status may apply.

An Overview of Social Security Benefits

On What Is the Amount of a Social Security Benefit Based?

In general, a covered worker's benefits, and those of his or her family members, are based on the worker's earnings record. The earnings taken into account are only those reported to the Social Security Administration (SSA), up to a certain annual maximum known as the "wage base." The wage base is indexed for inflation each year and effectively places a cap on the amount of Social Security benefits a worker can receive, regardless of earnings. The wage base for 2012 is \$110,100.¹

Using a worker's earnings record, the SSA calculates a number known as the Primary Insurance Amount, or PIA. The PIA is the basic value used to determine the dollar amount of benefits available to a worker and his or her family.

What Is the Benefit Amount?

The table below summarizes the benefit amounts generally payable under OASDI in the event of a worker's death, disability, or retirement. All monthly benefit amounts are subject to reduction to meet a "family maximum" limit. Individual benefits may also be reduced if the recipient has earned income in excess of specified limits.

	Death ²	Disability ³	Retirement ⁴
Worker's benefit		100% of PIA	100% of PIA
Spouse's benefit	N/A	50% of PIA	50% of PIA
Widow(er)'s benefit	100% of PIA	N/A	N/A
Child's benefit	75% of PIA	50% of PIA	50% of PIA
Mother's or father's benefit	75% of PIA	50% of PIA	50% of PIA
Parent's benefit	87.5% of PIA ⁵	N/A	N/A

Workers age 60 or older and who are not receiving Social Security benefits automatically receive a paper Social Security Statement each year which summarizes the worker's earnings as well as providing estimated retirement, disability, and survivors benefits. Workers turning age 25 will receive a one-time-only statement with similar information. A paper statement can be requested by completing form SSA-7004 and mailing it to the address shown on the form.

Earnings information may also be verified by calling the SSA directly at (800) 772-1213; TTY (800) 325-0778, Monday through Friday, 7:00AM to 7:00PM. On the internet, the SSA can be found at <http://www.ssa.gov/>.

¹ The wage base for 2011 was \$106,800.

² Reduced widow(er)'s benefits are available at age 60.

³ Disability benefits are subject to a very strict definition of disability. At normal retirement age (NRA), disability benefits cease and retirement benefits begin.

⁴ Unreduced benefits are available at NRA. For those born before 1938, NRA is age 65. For individuals born after 1937, NRA gradually increases from age 65 to age 67. For example, for baby boomers born between 1943 -1954, NRA is age 66. A larger retirement benefit is available to those who continue to work past NRA.

⁵ If one parent qualifies, the benefit is 87.5% of the PIA. If both parents qualify, the benefit is 75% of the PIA to each.
