Book Disclosure:

The views outlined in the book, *Keen on Retirement Engineering the Second Half of Your Life*, are those of the author and should not be construed as individualized or personalized investment advice. Any economic and/or performance information cited is historical and not indicative of future results. Economic forecasts set forth may not develop as predicted.

Different types of investments involve varying degrees of risk, and there can be no assurance that the future performance of any specific investment, investment strategy, or product referred to directly or indirectly in this book, will be profitable, equal any corresponding indicated historical performance level(s), or be suitable for a given investor or portfolio.

Investing in stocks includes numerous specific risks including: the fluctuation of dividend, loss of entire principal and potential illiquidity of the investment in a falling market. Bonds are subject to market and interest rate risk if sold prior to maturity. Bond and bond mutual fund values and yields will decline as interest rates rise and bonds are subject to availability and change in price.

Additionally, it should be expected that data will change over time, and therefore, laws and regulations may change as well. As such, the views of the author could also change. You are encouraged to confirm the accuracy of the information contained in this book before acting.

The information contained in the book, *Keen on Retirement Engineering the Second Half of Your Life*, is general in nature and offered only for educational purposes. No investment

decisions should be based solely upon this book's contents. Moreover, you should not assume that any discussion or information contained in this book serves as the receipt of, or as a substitute for, personalized investment advice. This book is not a substitute for engaging a professional advisor for a personal consultation whereby all your financial circumstances, risk tolerance and investment objectives can be considered. To the extent that you have any questions regarding the applicability of any specific issue discussed above to your individual situation, you are encouraged to consult with a professional advisor of your choosing.

Amazon #1 Best Seller Ranking:

Amazon rankings although relevant on how a product is selling overall doesn't necessarily indicate how well an item is selling among other similar items or similar item categories. Amazon may choose the most popular categories or subcategories within which an item has a high ranking to determine its best seller rankings

Amazon Best Sellers, on the Kindle Store, are divided into two lists which are updated hourly. The Top 100 Paid List requires best sellers to have a value greater than \$0.00. The Top 100 Free List requires the item to have a value equal to \$0.00.

Royalties received from the sale or purchase of a book are disclosed on the author's disclosure document. The company does not receive any royalties from the sale or purchase of a book.

The #1 Amazon Best Seller ranking listed on marketing images is specifically referring to #1 Best Seller rankings for the Kindle Top 100 Paid Lists under the subcategories of: Wealth Management, Budgeting and Financial Risk Management, based on data as of September 5, 2019. These rankings are updated hourly and as a result, should be expected to fluctuate as such.

The company and Amazon are not affiliated entities.
