

Stocks retreated in the first trading week of 2024, struggling a bit after a celebratory end to last year as investors second-guessed Fed signals and fretted over lingering inflation concerns. **New Year Blues**

Stocks got off to a rough first week of the new year, with tech names

leading the week's decline. Several market observers called it the "reverse Goldilocks" effect, where the market decided investors were getting a little too excited over the prospect of a Fed rate cut.

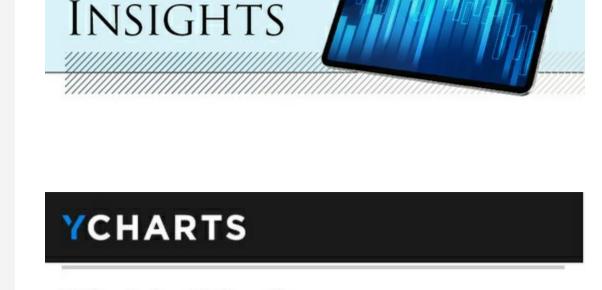

Stocks bounced up and down each of the four trading days but ended each one down—except Friday, when the Dow Industrials, Nasdaq Composite, and S&P 500 all ended the day in the green when jobs data helped soften the week's slide. 1,2

On Wednesday, manufacturing news came in better than expected, lifting markets until the December Federal Open Market Committee meeting

MARKET

All About the Fed

minutes were released, revealing that the Fed members had discussed rate cuts for 2024 but in no specific terms. Jobs and services sector news painted a better picture of the economy on Thursday, but as the 10-year Treasury hit 4%, stock prices responded negatively.

HEALTHY LIVING TIP

A Beginner's Guide to Juicing Juicing is a fantastic way to get some extra fruits and veggies into your diet, especially on those busy days when you can't find time to make a nutritious meal. Plus, it's easy to start and reap the many benefits. First, decide what kind of juicer you want. The two most common types are masticating and centrifugal juicers. Masticating juicers "chew" the food and are slower. Preparing the produce for these juicers takes longer

because they can juice only small pieces, but you retain more nutrients. Centrifugal juicers are slightly more affordable, and juice with a spinning

disk. You do less produce prep, but the juice doesn't have as many

Next, you need to decide what to juice. You'll learn which fruits and

FOOD FOR THOUGHT

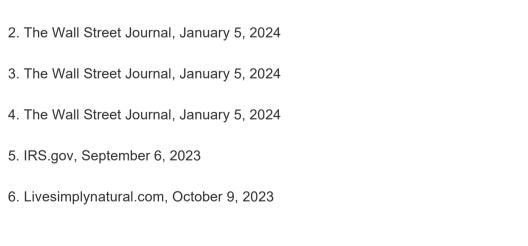

If you file an extension of your tax return, it's essential to avoid the common errors described below to submit a complete and accurate tax return: Missing or inaccurate Social Security number (SSN): Make sure your return has your correct SSN, matching what is on your Social Security card.

Unsigned forms: Lastly, you should double-check that all sections of your forms are signed. Missing signatures can delay your return. *This information is not intended to substitute for specific individualized tax advice. We suggest you discuss your specific tax issues with a qualified tax professional.
