INFORMATIONAL BROCHURE
NEW POTOMAC PARTNERS LLC

Item 4: Advisory Business

New Potomac Partners LLC (“NPP”) has been in business since October, 2014. David Straus, Joshua Olds, and Robin Mitler are the firm’s principal owners.

NPP provides portfolio management financial planning, and investment management services. Clients advised may include individuals, families, trusts, charitable organizations and foundations and corporations.

Asset Management

NPP does not generally require each client to place a minimum amount of assets with the firm.

Asset management services may be provided on a “discretionary” or on a “non-discretionary” basis. When NPP is engaged to provide asset management services on a discretionary basis, we will monitor your accounts to ensure that they are meeting your asset allocation requirements. If any changes are needed to your investments, we will make the changes. These changes may involve selling a security or group of investments and buying others or keeping the proceeds in cash. You may at any time place restrictions on the types of investments we may use on your behalf, or on the allocations to each security type. You will receive written or electronic confirmations from your account custodian after any changes are made to your account. You will also receive statements at least quarterly from your account custodian. Clients engaging us on a discretionary basis will be asked to execute a Limited Power of Attorney (granting us the discretionary authority over the client accounts) as well as an Investment Management Agreement that outlines the responsibilities of both the client and NPP.

When a client engages us to provide investment management services on a non-discretionary basis, we monitor the accounts in the same way as for discretionary services. The difference is that changes to your account will not be made until we have confirmed with you (either verbally or in writing) that our proposed change is acceptable to you.

Wrap Program

For some clients, NPP may include certain transactional costs in the client’s management fee. This arrangement is referred to as a “Wrap Program”. For accounts in the Wrap Program, NPP pays a fee to the custodian based on the clients’ transaction costs. Fees in the wrap program, do not include expenses related to the use of margin, wire transfer fees, the fees charged to shareholders of mutual funds or ETFs, mark-ups and mark-downs, spreads, odd-lot differentials, fees charged by regulatory agencies, and any transaction fees for securities trades executed by a broker-dealer other than the agreed upon custodian. Because NPP will be managing the assets of wrap fee program clients the same way as other non-wrap fee program clients, the use of external portfolio managers within the wrap program is expected to be limited. Therefore, there is no difference between how NPP manages wrap fee accounts and how NPP manages other accounts. While there is no difference between the investment recommendations for wrap fee accounts and how NPP manages other accounts, clients who do not participate in the wrap program are non-discretionary clients, meaning changes to the client’s account will not be made until we have confirmed with the client (either verbally or in writing) that our proposed change is acceptable to them.

Because of the nature of a wrap fee program, where wrap fees are not tied to an account's frequency of trading and apply to generally all assets in the account, the wrap fee program client may pay more or less than if the client had compensated NPP outside of the wrap fee program. For example, if a client's account is rarely traded, the transaction fees the client would have paid would be minimal, thus limiting the benefits of "wrapping" management fees and transaction fees. Clients whose accounts will be rarely traded should carefully consider whether the Wrap Program is appropriate. Clients are not required to participate in the Wrap Program. NPP receives a portion of the wrap fee for our services.

NPP does not engage other portfolio managers to manage assets within the wrap fee program. NPP is the sole portfolio manager in the wrap program, which means that NPP receives a portion of the wrap fee for our services. Transaction fees are paid to various broker-dealers, mutual funds and ETFs. The remainder of the wrap fee is the management fee payable to NPP.

NPP will receive no additional compensation for offering the wrap fee program.

Please see the separate Wrap Fee Brochure for a more complete description of the Wrap Program.

If you request, NPP may recommend the services of other professionals for implementation purposes. You are under no obligation to engage the services of any such recommended professional. You retain absolute discretion over all such implementation decisions and are free to accept or reject any recommendation from NPP. If you engage any professional recommended by NPP, and a dispute arises thereafter relative to such engagement, you agree to seek recourse exclusively from and against the engaged professional.

Financial Planning

Some NPP clients are provided with financial planning as part of the asset management services on an as-needed basis, so that the investment decisions made in the asset management process can closely track the goals of the client's financial plan. In some cases, the client receives a written deliverable plan document. In cases where the needs and circumstances are simpler, a written deliverable may not be merited. However, for clients wishing to have planning services without asset management, a separate engagement can be arranged.

Assets Under Management

As of December 2022, NPP has approximately \$166,465,461 in assets under management, in 176 accounts. Of that total, \$10,869,730 is managed on a discretionary basis, in 23 accounts and \$155,595,731 is managed on a non-discretionary basis, in 153 accounts.

Item 5: Fees and Compensation

A. Fees Charged

All investment management clients will be required to execute an Investment Management Agreement that will describe the type of management services to be provided and the fees, among other items.

Asset Management

Generally, fees vary from 0.60% to 1.25% per annum of the market value of a client's assets managed by NPP. The fee range stated is a guide. Fees are negotiable, and may be higher or lower than this range,

based on the nature of the account. Factors affecting fee percentages include the size of the account, complexity of asset structures, and other factors. For non-discretionary clients who do not participate in the Wrap Program, the fee is a flat 0.75% per annum. All clients, but especially those with smaller accounts, should be advised they may receive similar services from other professionals for higher or lower overall costs. NPP's fee schedule for discretionary asset management is as follows:

<i>Assets Under Management</i>	<i>Annual Rate</i>
\$0-\$750,000	1.25%
\$750,000-\$1,500,000	1.00%
\$1,500,000-\$2,500,000	0.75%
\$2,500,000-\$5,000,000	0.60%
\$5,000,000 and above	Negotiable

Financial Planning

Fixed Fees

The rate for creating client financial plans is between \$1,000 and \$2,500. The fees are negotiable and the final fee schedule will be attached as Exhibit II of the Financial Planning Agreement.

Hourly Fees

The hourly fee for these services is between \$100 and \$300 an hour depending on the complexity of the plan.

The hourly fee is negotiable and the final fee schedule will be attached as Exhibit II of the Financial Planning Agreement.

B. Fee Payment

Asset Management

Investment advisory fees may be debited directly from each client's account. The advisory fee is paid quarterly, either in advance or arrears, depending on the client's arrangement with NPP. The value used for the fee calculation is the net value as of the last market day of the previous quarter. By using the last day of the previous billing period, NPP is not taking into consideration any upcoming deposits or withdrawals, unless the withdrawal is pursuant to a termination of the relationship, in which case a pro-rata refund will be issued. This means that if your annual fee is 1.00%, then each quarter we will multiply the value of your account by 1.00% then divide by 4 to calculate our fee. Once the calculation is made, we will instruct your account custodian to deduct the fee from your account and remit it to NPP. While almost all of our clients choose to have their fee debited from their account, we will invoice clients upon request.

Clients whose fees are directly debited will provide written authorization to debit advisory fees from their accounts held by a qualified custodian chosen by the client. Each quarter, clients will receive a bill itemizing the fees to be debited, including the formula used to calculate the fee, the amount of assets upon which the fee is based, and the time period covered by the fee. The invoice will also state that the fee was not independently calculated by the custodian. The client will also receive a statement from their account custodian showing all transactions in their account, including the fee.

Financial Planning

Fixed and Hourly Financial Planning fees are paid via cash, check or wire. Fees are paid in arrears upon delivery of the plan.

C. Other Fees

There are a number of other fees that can be associated with holding and investing in securities. Custodians typically charge fees for the purchase or sale of a mutual fund or fixed income securities, or commissions for the purchase or sale of a stock or exchange-traded Funds. Currently Schwab does not charge commissions on the purchase or sale of stocks or exchange-traded funds. To the extent you participate in New Potomac Partner's Wrap Program, you will not be responsible for these fees, as they will be paid by New Potomac Partners as part of your management fee. Expenses of a fund will not be included in management fees, as they are deducted from the value of the shares by the mutual fund manager. For complete discussion of expenses related to each mutual fund, you should read a copy of the prospectus issued by that fund. NPP can provide or direct you to a copy of the prospectus for any fund that we recommend to you.

Please make sure to read Item 12 of this informational brochure, where we discuss broker-dealer and custodial issues.

D. Pro-rata Fees

For clients who are billed in advance, if you become a client during a quarter, you will pay a management fee for the number of days left in that quarter. If you terminate our relationship during a quarter, you will be entitled to a refund of any management fees for the remainder of the quarter. Once your notice of termination is received, we will assess pro-rated fees for the number of days between the end of the prior billing period and the date of termination to be paid in whatever way you direct (check, wire).

For clients who are billed in arrears, if you become a client during a quarter, you will pay a management fee for the number of days left in that quarter. If you terminate our relationship during a quarter, you will be charged a management fee for the portion of the quarter during which you were a client. Once your notice of termination is received, we will charge the fee through the date of termination.

NPP will cease to perform services, including processing trades and distributions, upon termination. Assets not transferred from terminated accounts within 30 (thirty) days of termination may be "de-linked", meaning they will no longer be visible to NPP and will become a retain account with the custodian.

E. Compensation for the Sale of Securities

This item is not applicable.

Item 6: Performance-Based Fees

NPP will not charge performance-based fees.

Item 7: Types of Clients

Clients advised may include individuals, families, trusts, charitable organizations and foundations, and corporations. NPP does not generally require each client to place a minimum amount of assets with the firm.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

It is important for you to know and remember that all investments carry risks. **Investing in securities involves risk of loss that clients should be prepared to bear.**

Methods of Analysis

The Firm may use the following methods when considering investment strategies and recommendations.

Charting Review

Charting is a technical analysis that charts the patterns of stocks, bonds, and commodities to help determine buy and sell recommendations for clients. It is a way of gathering and processing price and volume information in a security by applying mathematical equations and plotting the resulting data onto graphs in order to predict future price movements. A graphical historical record assists the analyst in spotting the effect of key events on a security's price, its performance over a period of time, and whether it is trading near its high, near its low or in between. Chartists believe that recurring patterns of trading, commonly referred to as indicators, can help them forecast future price movements.

Fundamental Review

A fundamental analysis is a method of evaluating a company or security by attempting to measure its intrinsic value. Fundamental analysis attempts to determine the true value of a company or security by looking at all aspects of the company or security, including both tangible factors (e.g., machinery, buildings, land, etc.) and intangible factors (e.g., patents, trademarks, "brand" names, etc.). Fundamental analysis also involves examining related economic factors (e.g., overall economy and industry conditions, etc.), financial factors (e.g., company debt, interest rates, management salaries and bonuses, etc.), qualitative factors (e.g., management expertise, industry cycles, labor relations, etc.), and quantitative factors (e.g., debt-to-equity and price-to-equity ratios).

The end goal of performing fundamental analysis is to produce a value that an investor can compare with the security's current price with the aim of determining what sort of position to take with that security (e.g., if underpriced, the security should be bought; if overpriced the security should sold). Fundamental analysis uses real data to evaluate a security's value. Although most analysts use fundamental analysis to value stocks, this method of valuation can be used for many types of securities.

Technical Review

A technical analysis is a method of evaluating securities that analyzes statistics generated by market activity, such as past prices and volume. Technical analysis does not attempt to measure a security's intrinsic value, but instead uses past market data and statistical tools to identify patterns that can suggest future activity. Historical performance of securities and the markets can indicate future performance.

Cyclical Review

A cyclical analysis assumes the market reacts in reoccurring patterns that can be identified and leveraged to provide performance. Cyclical analysis of economic cycles is used to determine how these reoccurring patterns, or cycles, affect the returns of a given investment, asset, or company. Cyclical analysis is a time-based assessment which incorporates past and present performance to determine future value. Cyclical analyses exist because the broad economy has been shown to move in cycles, from periods of peak performance to periods of low performance. The risks of this strategy are two-fold: (1) the markets do not always repeat cyclical patterns; and (2) if too many investors begin to implement this strategy, it changes the very cycles of which they are trying to take advantage.

Economic Review

An economic analysis determines the economic environment over a certain time horizon. This involves following and updating historic economic data such as U.S. gross domestic product and consumer price index as well as monitoring key economic drivers such as employment, inflation, and money supply for the world's major economies.

Investment Strategies

Each client's portfolio will be invested according to that client's investment objectives. We determine these objectives by interviewing the client and/or asking the client to put these objectives in writing. Once we ascertain your objectives for each account, we will develop a set of asset allocation guidelines. An asset allocation strategy is a percentage-based allocation to different investment types. For example, a client may have an asset allocation strategy that calls for 40-60% of the portfolio to be invested in equity securities, with 20% of that allocated to international equities and the remaining balance in fixed income. Another client may have an asset allocation of 50-60% in fixed income securities and the remainder equities. The percentages in each type that we recommend are based on the typical behavior of that security type, individual securities we follow, current market conditions, your current financial situation, your financial goals, and the timeline to get you to those goals. Because we develop an investment strategy based on your personal situation and financial goals, your asset allocation guidelines may be similar to or different from another client's. Once we agree on allocation guidelines, risk tolerance, time horizon, and how to achieve these results, we will develop a plan to guide all parties involved in the execution of these goals, including but not limited to, NPP, the client, the custodian, and the investment managers.

Upon completion of the plan, we will periodically recommend securities transactions in your portfolio to meet the guidelines of the asset allocation strategy. It is important to remember that because market conditions can vary greatly, your asset allocation guidelines are not necessarily strict rules. Rather, we review accounts individually, and may deviate from the guidelines as we believe necessary.

The specific securities we recommend for your account will depend on market conditions and our research at the time. Generally, we recommend a mix of stocks, bonds, exchange-traded funds mutual funds, index funds and options. Specific funds are chosen based on how their investment objectives fit into the asset allocation recommended by NPP, its risk parameters, past performance, peer rankings, fees, expenses, and any other aspects of the fund NPP deems relevant to that particular fund. We base our conclusions on predominantly publicly available research, such as regulatory filings, press releases, competitor analyses, and in some cases research we receive from our custodian or other market analyses. We will also utilize technical analyses, which means that we will review the past behaviors of the security and the markets in which it trades for signals as to what might happen in the future.

Additionally, part of the NPP process includes, where appropriate, involving multiple generations in order to facilitate family financial planning. This can increase the financial education of the later generations and manage expectations. However, potential for conflicts of interest exist with the exchange of intergenerational information. NPP attempts to minimize these conflicts by treating each household as its own fiduciary relationship. Information can only be shared across generations with each household's consent.

Risk of Loss

There are always risks to investing. Clients should be aware that all investments carry various types of risk including the potential loss of principal that clients should be prepared to bear. It is impossible to name all possible types of risks. Among the risks are the following:

- **Political Risks.** Most investments have a global component, even domestic stocks. Political events anywhere in the world may have unforeseen consequences to markets around the world.
- **General Market Risks.** Markets can, as a whole, go up or down on various news releases or for no understandable reason at all. This sometimes means that the price of specific securities could go up or down without real reason and may take some time to recover any lost value. Adding additional securities does not help to minimize this risk since all securities may be affected by market fluctuations.
- **Currency Risk.** When investing in another country using another currency, the changes in the value of the currency can change the value of your security value in your portfolio.
- **Regulatory Risk.** Changes in laws and regulations from any government can change the value of a given company and its accompanying securities. Certain industries are more susceptible to government regulation. Changes in zoning, tax structure or laws impact the return on these investments.
- **Tax Risks Related to Short Term Trading:** Clients should note that NPP may engage in short-term trading transactions. These transactions may result in short term gains or losses for federal and state tax purposes, which may be taxed at a higher rate than long term strategies. NPP endeavors to invest client assets in a tax efficient manner, but all clients are advised to consult with their tax professionals regarding the transactions in client accounts.
- **Purchasing Power Risk.** Purchasing power risk is the risk that your investment's value will decline as the price of goods rises (inflation). The investment's value itself does not decline, but its relative value does, which is the same thing. Inflation can happen for a variety of complex reasons, including a growing economy and a rising money supply.
- **Business Risk.** This can be thought of as certainty or uncertainty of income. Management comes under business risk. Cyclical companies (like automobile companies) have more business risk because of the less steady income stream. On the other hand, fast food chains tend to have steadier income streams and therefore, less business risk.
- **Financial Risk.** The amount of debt or leverage determines the financial risk of a company.
- **Default Risk.** This risk pertains to the ability of a company to service their debt. Ratings provided by several rating services help to identify those companies with more risk. Obligations of the U.S. government are said to be free of default risk.
- **Information Risk.** All investment professionals rely on research in order to make conclusions about investment options. This research is always a mix of both internal (proprietary) and external (provided by third parties) data and analyses. Even an adviser who says they rely solely on proprietary research must still collect data from third parties. This data, or outside research is chosen for its perceived reliability, but there is no guarantee that the data or research will be completely accurate. Failure in data accuracy or research will translate to a compromised ability by the adviser to reach satisfactory investment conclusions.
- **Concentration Risk.** While NPP selects individual securities, including mutual funds, for client portfolios based on an individualized assessment of each security, this evaluation comes without an overlay of general economic or sector specific issue analysis. This means that a client's equity portfolio

may be concentrated in a specific sector, geography, or sub-sector (among other types of potential concentrations), so that if an unexpected event occurs that affects that specific sector or geography, for example, the client's equity portfolio may be affected negatively, including significant losses.

- **Transition Risk.** As assets are transitioned from a client's prior advisers to NPP there may be securities and other investments that do not fit within the asset allocation strategy selected for the client. Accordingly, these investments will need to be sold in order to reposition the portfolio into the asset allocation strategy selected by NPP. However, this transition process may take some time to accomplish. Some investments may not be unwound for a lengthy period of time for a variety of reasons that may include unwarranted low share prices, restrictions on trading, contractual restrictions on liquidity, or market-related liquidity concerns. In some cases, there may be securities or investments that are never able to be sold. The inability to transition a client's holdings into recommendations of NPP may adversely affect the client's account values, as NPP's recommendations may not be able to be fully implemented.
- **Restriction Risk.** Clients may at all times place reasonable restrictions on the management of their accounts. However, placing these restrictions may make managing the accounts more difficult, thus lowering the potential for returns.
- **Risks Related to Investment Term & Liquidity.** Securities do not follow a straight line up in value. All securities will have periods of time when the current price of the security is not an accurate measure of its value. If you require us to liquidate your portfolio during one of these periods, you will not realize as much value as you would have had the investment had the opportunity to regain its value. Further, some investments are made with the intention of the investment appreciating over an extended period of time. Liquidating these investments prior to their intended time horizon may result in losses.
- **Exchange Traded Funds (ETFs).** An ETF is an investment fund traded on stock exchanges, similar to stocks. Investing in ETFs carries the risk of capital loss (sometimes up to a 100% loss in the case of a stock holding bankruptcy). Areas of concern include the lack of transparency in products and increasing complexity, conflicts of interest and the possibility of inadequate regulatory compliance. Because ETFs use "authorized participants" (APs) as agents to facilitate creations or redemptions (primary market), there is a risk that an AP decides to no longer participate for a particular ETF; however, that risk is mitigated by the fact that other APs can step in to fill the vacancy of the withdrawing AP [an ETF typically has multiple APs] and ETF transactions predominantly take place in the secondary market without need for an AP. Like other liquid securities, ETF pricing changes throughout the trading day and there can be no guarantee that an ETF is purchased at the optimal time in terms of market movements. Moreover, due to market fluctuations, ETF brokerage costs, differing demand and characteristics of underlying securities, and other factors, the price of an ETF can be lower than the aggregate market price of its cash and component individual securities (net asset value – NAV). An ETF is subject to the same market risks as those of its underlying individual securities, and also has internal expenses that can lower investment returns.
- **Risks of Reliance on Technology.** NPP relies heavily on internal and third-party computer hardware and software, online services, data feeds, trading platforms, and other technology to conduct investment and trading activities. Impactful disruptions to these systems or resources make it difficult or impossible to implement the investment strategy and could materially and adversely affect the funds and client accounts. Examples of such impactful disruptions and circumstances include natural disasters, terrorism, cybersecurity attacks, public service or utility disruptions such as those caused by fires, floods, earthquakes, market trading halts, systems failures and other extraordinary events.
- **Cybersecurity Risks.** Cybersecurity breaches may cause disruptions to business operations, cause losses due to theft or other reasons, interfere with net asset value calculations, impede trading, or lead to violations of applicable privacy and other laws, regulatory fines and penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs.
- **Liquidity Risk** Liquidity risk is the risk of companies and individuals not meeting their short-term financial obligations, specifically because they're unable to convert assets into cash without incurring a loss.

Item 9: Disciplinary Information

There are no disciplinary items to report.

Item 10: Other Financial Industry Activities and Affiliations**A. Broker-dealer**

Neither the principals of NPP, nor any related persons are registered, or have an application pending to register, as a broker dealer or as an associated person of the foregoing entities.

B. Futures Commission Merchant/Commodity Trading Advisor

Neither the principals of NPP, nor any related persons are registered, or have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading advisor, or an associated person of the foregoing entities.

C. Relationship with Related Persons

The owners of NPP all worked together at a prior firm. Some clients of that prior firm became clients of Folger Nolan Fleming Douglas Incorporated, a registered investment adviser and broker-dealer. In many cases, the client and the advisory professionals at Folger Nolan have recommended that NPP manage the assets on the Lockwood platform with Pershing as custodian. In these cases, Folger Nolan and its representatives remain responsible for overall investment advice, such as asset allocation and financial planning.

D. Recommendations of Other Advisers

NPP does not utilize nor select other advisers or third-party managers. All assets are managed by NPP.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. A copy of our Code of Ethics is available upon request. Our Code of Ethics includes discussions of our fiduciary duty to clients, political contributions, gifts, entertainment, and trading guidelines.

B. Not applicable. NPP does not recommend to clients that they invest in any security in which NPP or any principal thereof has any financial interest.

C. On occasion, a principal of NPP may purchase for his or her own account securities which are also recommended for clients. Our Code of Ethics details rules for employees regarding personal trading and avoiding conflicts of interest related to trading in one's own account. To avoid placing a trade before a client in the case of a purchase or sale, all employee trades must be reviewed by the Compliance Officer. All employee trades take place after the client trades. All trades should receive prior approval from the Compliance Officer. Employee statements are reviewed to confirm compliance with the trading procedures.

D. On occasion, a principal of NPP may purchase for his or her own account securities which are also recommended for clients at the same time the clients purchase the securities. Our Code of Ethics

details rules for employees regarding personal trading and avoiding conflicts of interest related to trading in one's own account. To avoid placing a trade before a client (in the case of a purchase) or sale), all employee trades must be reviewed by the Compliance Officer. All employee trades take place after the client trade. All trades should receive prior approval from the Compliance Officer. Employee statements are reviewed to confirm compliance with the trading procedures.

Item 12: Brokerage Practices

A. Recommendation of Broker-Dealer

NPP does not maintain custody of client assets; though NPP may be deemed to have custody if a client grants NPP authority to debit fees directly from their account (see Item 15 below). Assets will be held with a qualified custodian, which is typically a bank or broker-dealer. NPP recommends that investment accounts be held in custody by Schwab Advisor Services ("Schwab"), which is a qualified custodian. NPP is independently owned and operated and is not affiliated with Schwab. Schwab will hold your assets in a brokerage account and buy and sell securities when NPP instructs them to, which NPP does in accordance with its agreement with you. While NPP recommends that you use Schwab as custodian/broker, you will decide whether to do so and will open your account with Schwab by entering into an account agreement directly with them. NPP does not open the account for you, although NPP may assist you in doing so. Even though your account is maintained at Schwab, we may use other brokers to execute trades for your account as described below (see "Your brokerage and custody costs").

Folger Nolan, for which NPP acts as subadvisor, recommends Pershing LLC.

How we select brokers/custodians

We seek to recommend a custodian/broker that will hold assets and execute transactions on terms that are, overall, most advantageous when compared with other available providers and their services. We consider a wide range of factors, including both quantitative (i.e.: costs) and qualitative (execution, reputation, service) factors. We do not consider whether Schwab or any other broker-dealer/custodian, refers clients to NPP as part of our evaluation of these broker-dealers.

Your brokerage and custody costs

For clients' accounts that Schwab maintains, Schwab generally does not charge separately for custody services but is compensated by the money held in each account, and charging commissions or other fees on trades that it executes or that settle into Schwab accounts. In addition to commissions, Schwab charges a flat dollar amount as a "prime broker" or "trade away" fee for each trade that executed by a different broker-dealer but where the securities bought or the funds from the securities sold are deposited (settled) into Schwab accounts. These fees are in addition to the other compensation paid to the executing broker-dealer. Because of this, in order to minimize costs, NPP has Schwab execute most trades for our managed accounts. We have determined that having Schwab execute most trades is consistent with our duty to seek "best execution" of trades. Best execution means the most favorable terms for a transaction based on all relevant factors, including those listed above (see "How we select brokers/custodians").

Products and services available to us from Schwab

Schwab Advisor Services™ (formerly called Schwab Institutional®) is Schwab's business serving independent investment advisory firms like NPP. They provide NPP and our clients with access to its institutional brokerage services (trading, custody, reporting, and related services), many of which are not typically available to Schwab retail customers. Schwab also makes available various support services. Some of those services help NPP manage or administer our clients' accounts, while others help NPP manage and grow our business. Schwab's support services are generally available on an unsolicited basis (we don't have to request them) and at no charge to NPP. Following is a more detailed description of Schwab's support services:

Services that benefit you

Schwab's institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of client assets. The investment products available through Schwab include some to which we might not otherwise have access or that would require a significantly higher minimum initial investment by our clients. Schwab's services described in this paragraph generally benefit you and your account.

Services that may not directly benefit you.

Schwab also makes available to us other products and services that benefit us but may not directly benefit you or your account. These products and services assist us in managing and administering our clients' accounts. They include investment research, both Schwab's own and that of third parties. We may use this research to service all or a substantial number of our clients' accounts, including accounts not maintained at Schwab. In addition to investment research, Schwab also makes available software and other technology that:

- Provide access to client account data (such as duplicate trade confirmations and account statements)
- Facilitate trade execution and allocate aggregated trade orders for multiple client accounts
- Provide pricing and other market data
- Facilitate payment of our fees from our clients' accounts
- Assist with back-office functions, recordkeeping, and client reporting

Services that generally benefit only us.

Schwab also offers other services intended to help us manage and further develop our business enterprise. These services include:

- Educational conferences and events
- Consulting on technology, compliance, legal, and business needs
- Publications and conferences on practice management and business succession
- Access to employee benefits providers, human capital consultants, and insurance providers
- Assistance related to the transition of client assets from prior firms

Schwab may provide some of these services itself. In other cases, it will arrange for third-party vendors to provide the services to us. Schwab may also discount or waive its fees for some of these services or pay all or a part of a third party's fees. Schwab may also provide us with other benefits, such as occasional business entertainment of our personnel.

Our interest in Schwab's services

The availability of these services from Schwab benefits us because we do not have to produce or purchase them. We don't have to pay for Schwab's services. These services are not contingent upon us committing any specific amount of business to Schwab in trading commissions or assets in custody. We may have an incentive to recommend that you maintain your account with Schwab, based on our interest in receiving Schwab's services that benefit our business rather than based on your interest in receiving the best value in custody services and the most favorable execution of your transactions. This is a potential conflict of interest. We believe, however, that our selection of Schwab as custodian and broker is in the best interests of our clients. Our selection is primarily supported by the scope, quality, and price of Schwab's services (see "How we select brokers/ custodians") and not Schwab's services that benefit only us.

We do not consider whether Schwab or any other broker-dealer/custodian, refers clients to NPP as part of our evaluation of these broker-dealers.

B. Aggregating Trades

Commission costs per client may be lower on a particular trade if all clients in whose accounts the trade is to be made are executed at the same time. This is called aggregating trades. For clients not working with NPP through the wrap program, NPP may place trades for the same security needed in multiple accounts by executing one trade, and then allocate the trades to each account after execution. If an aggregate trade is not fully executed, NPP attempts to allocate the securities to client accounts on a *pro rata* basis, except where doing so would create an unintended adverse consequence (For example, if a *pro rata* division would result in a client receiving a fraction of a share, or a position in the account of less than 1%.)

NPP may render investment advice for clients whose assets are held with a broker-dealer chosen by the client, and not recommended by NPP. In such arrangements, the client will negotiate terms and arrangements for their account with that broker-dealer. Consequently the client, and not NPP, will be in the best position to seek and secure the best value for the costs of execution. This means that the client may not pay the most cost-effective commission rates. NPP will not be able to aggregate orders under these circumstances, which may result in higher commission costs or transaction fees because the trading costs are not allocated among a group. Clients also may not benefit from commission rates NPP may be able to negotiate. Further, there may be some transactions in certain securities that must be placed first through NPP recommended broker-dealer. In some circumstances, placing those trades first may mean that a client who directs brokerage may not only pay a higher commission cost, but may also pay a higher price for a given security. NPP's current practice is to randomly select which broker-dealer we enter trades in first. In general, clients may not receive value for the commission dollar spent, may spend more than is necessary for execution services, and may have reduced gains in their accounts as a result of directing brokerage.

Item 13: Review of Accounts

All accounts will be reviewed by a senior professional on at least a quarterly basis. However, it is expected that market conditions, changes in a particular client's account, or changes to a client's circumstances will trigger a review of accounts.

The quarterly reports in writing provided by NPP are intended to review asset allocation. All clients will receive statements and confirmations of trades directly from Schwab. Additionally, all clients will receive quarterly itemized bills from NPP. Please refer to Item 15 regarding Custody.

Item 14: Client Referrals and Other Compensation

A. Economic Benefit Provided by Third Parties for Advice Rendered to Client.

Please refer to Item 12, where we discuss recommendation of Broker-Dealers.

B. Compensation to Non-Advisory Personnel for Client Referrals.

Clients may be introduced to NPP via other third parties. In the event that NPP compensates any party for the referral of a client to NPP, any such compensation will be paid by NPP, and not the client. If the client is introduced to NPP by an unaffiliated third party, that third party will disclose to the client the referral arrangement with NPP, including the compensation for the referral, and provide the client a copy of NPP's ADV Part 2A and 2B. The referral source will also provide a written disclosure to the client regarding the relationship between NPP and the referral source, including the fact that referral fees will be paid. Specifically, as discussed above in Item 10, clients may be referred by Folger Nolan.

Item 15: Custody

NPP may deduct fees from client accounts, but would not have custody of client funds otherwise. Clients will receive statements directly from the agreed upon custodian, and copies of all trade confirmations directly from the custodian.

Clients whose fees are directly debited will provide written authorization to debit advisory fees from their accounts held by a qualified custodian chosen by the client. Each quarter, clients will receive a bill itemizing the fees to be debited, including the formula used to calculate the fee, the amount of assets the fee is based, and the time period covered by the fee. The invoice will also state that the fee was not independently calculated by the custodian. The client will also receive a statement from their account custodian showing all transactions in their account, including the fee.

Custody is also disclosed in Form ADV because NPP has authority to transfer money from client account(s), which constitutes a standing letter or authorization (SLOA). Accordingly, NPP will follow the safeguards specified by the SEC rather than undergo an annual audit.

We encourage clients to carefully review the statements and confirmations sent to them by their custodian, and to compare the information on your quarterly report prepared by NPP against the information in the statements provided directly from the custodian. Please alert us of any discrepancies.

Item 16: Investment Discretion

When NPP is engaged to provide asset management services on a discretionary basis, we will monitor your accounts to ensure that they are meeting your asset allocation requirements. If any changes are needed to your investments, we will make the changes. These changes may involve selling a security or group of investments and buying others or keeping the proceeds in cash. You may at any time place restrictions on the types of investments we may use on your behalf, or on the allocations to each security type. You may receive at your request written or electronic confirmations from your account custodian after any changes are made to your account. You will also receive monthly statements from your account custodian. Clients engaging us on a discretionary basis will be asked to execute a Limited Power of Attorney (granting us the discretionary authority over the client accounts) as well as an Investment Management Agreement that outlines the responsibilities of both the client and NPP.

When a client engages NPP to provide investment management services on a non-discretionary basis, the accounts are monitored by NPP. The difference is that changes to your account will not be made until NPP has confirmed with you (either verbally or in writing) that the proposed change is acceptable to you.

Item 17: Voting Client Securities

Copies of our Proxy Voting Policies are available upon request.

From time to time, shareholders of stocks, mutual funds, exchange traded funds or other securities may be permitted to vote on various types of corporate actions. Examples of these actions include mergers, tender offers, class action lawsuits, or board elections. NPP will vote proxies on behalf of its clients. For these situations, NPP generally utilizes an independent proxy voting services. Proxies are voted directly by the independent proxy voting services in a manner that is consistent with the agreed upon guidelines, which have been adopted by NPP.

Item 18: Financial Information

NPP does not require the prepayment of fees more than \$1,200 six (6) months or more in advance and therefore has not provided a balance sheet with this brochure.

There are no material financial circumstances or conditions that would reasonably be expected to impair our ability to meet our contractual obligations to our clients.

Item 4: Services, Fees, and Compensation

The New Potomac Partners Wrap Program (the “Program”) is a wrap fee program sponsored by New Potomac Partners LLC (“NPP”) which has been in business since October 2014. David Straus, Joshua Olds, and Robin Mitler are the firm’s principal owners.

NPP provides financial planning, portfolio management, and investment management services. Clients advised may include individuals, families, trusts, charitable organizations and foundations, pensions and corporations.

A. Description of the Program

Asset Management

NPP does not generally require each client to place a minimum amount of assets with the firm.

Asset management services within the Program may be provided on a “discretionary” or on a “non-discretionary” basis. When NPP is engaged to provide asset management services on a discretionary basis, we will monitor your accounts to ensure that they are meeting your asset allocation requirements. If any changes are needed to your investments, we will make the changes. These changes may involve selling a security or group of investments and buying others or keeping the proceeds in cash. You may at any time place restrictions on the types of investments we may use on your behalf, or on the allocations to each security type. You will receive written or electronic confirmations from your account custodian after any changes are made to your account. You will also receive monthly statements from your account custodian. Clients engaging us on a discretionary basis will be asked to execute a Limited Power of Attorney (granting us the discretionary authority over the client accounts) as well as an Investment Management Agreement that outlines the responsibilities of both the client and NPP.

When a client engages us to provide investment management services on a non-discretionary basis, we monitor the accounts in the same way as for discretionary services. The difference is that changes to your account will not be made until we have confirmed with you (either verbally or in writing) that our proposed change is acceptable to you.

Some NPP clients are provided with financial planning as part of the asset management services on an as-needed basis, so that the investment decisions made in the asset management process can closely track the goals of the client’s financial plan. However, for clients wishing to have planning services without asset management, a separate engagement can be arranged.

If you request, NPP may recommend the services of other professionals for implementation purposes. You are under no obligation to engage the services of any such recommended professional. You retain absolute discretion over all such implementation decisions and are free to accept or reject any recommendation from NPP. If you engage any professional recommended by NPP, and a dispute arises thereafter relative to such engagement, you agree to seek recourse exclusively from and against the engaged professional.

As of December 2022, NPP has approximately \$166,465,461 in assets under management, in 176 accounts. Of that total, \$10,869,730 is managed on a discretionary basis, in 23 accounts and \$155,595,731 is managed on a non-discretionary basis, in 153 accounts.

Schwab's Brokerage Services.

In addition to the foregoing portfolio management and other services, the Program includes the brokerage services of Charles Schwab & Co., Inc. ("Schwab") a broker-dealer registered with the Securities and Exchange Commission and a member of FINRA and SIPC. NPP is an independently owned and operated and not affiliated with Schwab. Schwab will act solely as a broker-dealer and not as an investment advisor to you. It will have no discretion over your account and will act solely on instructions it receives from us [or you]. Schwab has no responsibility for our services and undertakes no duty to you to monitor our management of your account or other services we provide to you. Schwab will hold your assets in a brokerage account and buy and sell securities and execute other transactions when we [or you] instruct them to. While we require that you use Schwab as custodian/broker to participate in our program, you will decide whether to do so and open your account with Schwab by entering into an account agreement directly with them. We do not open the account for you. Not all advisors require their clients to use a particular broker-dealer or other custodian selected by the advisor. Even though your account is maintained at Schwab, we can still use other brokers to execute trades for your account.

Fees and Compensation

Fees Charged

All clients will be required to execute a written agreement that will describe the type of services to be provided and the fees, among other items.

Our Wrap Fees

Generally, fees vary from 0.60% to 1.25% per annum of the market value of a client's assets managed by NPP. The fee range stated is a guide. Fees are negotiable, and may be higher or lower than this range, based on the nature of the account. Factors affecting fee percentages include the size of the account, complexity of asset structures, and other factors. All clients, but especially those with smaller accounts, should be advised they may receive similar services from other professionals for higher or lower overall costs. NPP's fee schedule is as follows:

<i>Assets Under Management</i>	<i>Annual Rate</i>
\$0-\$750,000	1.25%
\$750,000-\$1,500,000	1.00%
\$1,500,000-\$2,500,000	0.75%
\$2,500,000-\$5,000,000	0.60%
\$5,000,000 and above	Negotiable

Financial Planning is provided as an additional service to asset management. There is no cost to the client to develop a financial plan and as such it is included in asset management fees.

Because our wrap fees are not tied to an account's frequency of trading and apply generally to all assets in the account, this fee arrangement is not appropriate for all accounts. For example, a wrap fee arrangement would not be appropriate for an account that holds primarily cash and cash equivalents, fixed income securities or no-transaction-fee mutual funds for a substantial period of time.

Fees paid by wrap fee program participants will follow the same general guidelines, the only difference being that wrap fee clients will have some or all of their transaction fees covered by NPP. Fees included

in the wrap fee include transaction fees for the purchase or sale of securities, but do not include expenses related to the use of margin, wire transfer fees, the fees charged to shareholders of mutual funds or ETFs, mark-ups and mark-downs, spreads, odd-lot differentials, fees charged by regulatory agencies, and any transaction fees for securities trades executed by a broker-dealer other than Schwab Advisor Services. Because NPP will be managing the assets of wrap fee program clients the same way as other non-wrap fee program clients, the use of external portfolio managers is expected to be limited. Any fees due to another portfolio manager will be paid by the client.

Because of the nature of a wrap fee program, the wrap fee program client may pay more or less than if the client had compensated NPP outside of the wrap fee program. For example, if a client's account is rarely traded, the transaction fees the client would have paid would be minimal, thus limiting the benefits of "wrapping" management fees and transaction fees. Because NPP will be compensated the same amount whether an account participating in the wrap program is traded or not, we have a financial incentive to avoid trading the account. This creates a conflict of interest between the firm and its wrap clients. NPP attempts to mitigate this conflict by requiring that the firm's employees acknowledge their fiduciary duty to place client interests ahead of their own and by periodically comparing wrap program client performance against any clients who are not in the wrap program.

NPP will receive no additional compensation for offering the wrap fee program.

Fee Payment

Investment advisory fees may be debited directly from each client's account. The advisory fee is paid quarterly, either in advance or arrears, depending on the client's arrangement with NPP. The value used for the fee calculation is the net value as of the last market day of the previous quarter. By using the last day of the previous billing period, NPP is not taking into consideration any upcoming deposits or withdrawals, unless the withdrawal is pursuant to a termination of the relationship, in which case a pro-rata refund will be issued. This means that if your annual fee is 1.00%, then each quarter we will multiply the value of your account by 1.00% then divide by 4 to calculate our fee. Once the calculation is made, we will instruct your account custodian to deduct the fee from your account and remit it to NPP.

Clients whose fees are directly debited will provide written authorization to debit advisory fees from their accounts held by a qualified custodian chosen by the client. Each quarter, clients will receive a bill itemizing the fees to be debited, including the formula used to calculate the fee, the amount of assets upon which the fee is based, and the time period covered by the fee. The invoice will also state that the fee was not independently calculated by the custodian. The client will also receive a statement from their account custodian showing all transactions in their account, including the fee.

Pro-rata Fees

For clients who are billed in advance, if you become a client during a quarter, you will pay a management fee for the number of days left in that quarter. If you terminate our relationship during a quarter, you will be entitled to a refund of any management fees for the remainder of the quarter. Once your notice of termination is received, we will assess pro-rated fees for the number of days between the end of the prior billing period and the date of termination to be paid in whatever way you direct (check, wire).

For clients who are billed in arrears, if you become a client during a quarter, you will pay a management fee for the number of days left in that quarter. If you terminate our relationship during a quarter, you will be charged a management fee for the portion of the quarter during which you were a client. Once your notice of termination is received, we will charge the fee through the date of termination.

NPP will cease to perform services, including processing trades and distributions, upon termination. Assets not transferred from terminated accounts within 30 (thirty) days of termination may be “de-linked”, meaning they will no longer be visible to NPP and will become a retain account with the custodian.

Item 5: Account Requirement and Type of Clients

Clients advised may include individuals, families, trusts, charitable organizations and foundations, pensions and corporations. NPP does not generally require each client to place a minimum amount of assets with the firm.

Item 6: Portfolio Manager Selection and Evaluation

The wrap fee program offered by NPP is sponsored by the firm, and NPP is the only portfolio manager. The only fees covered under the wrap fee program are transaction fees associated with the purchase and sale of securities in an account managed by NPP. All client accounts managed by NPP, including wrap fee program clients, are managed with similar processes, although account recommendations may differ.

Item 7: Client Information provided to Portfolio Managers

Please see response to Item 6, above.

Item 8: Client Contact with Portfolio Managers

Clients may contact NPP, the only portfolio manager, at any time.

Item 9: Additional Information

Disciplinary Information

Neither the firm nor any of its employees or principals has any disciplinary information to report.

Other Financial Industry Activities and Affiliations

Broker-dealer

Neither the principals of NPP, nor any related persons are registered, or have an application pending to register, as a broker dealer or as an associated person of the foregoing entities.

Futures Commission Merchant/Commodity Trading Advisor

Neither members of management, nor any related persons are registered, or have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading advisor, or an associated person of the foregoing entities.

Relationship with Related Persons

NPP and its personnel serve as the portfolio managers for all wrap fee program accounts. This is a conflict of interest in that no outside adviser assesses NPP's management of the wrap fee program. However, NPP addresses this conflict by acting in its clients' best interest consistent with its fiduciary duty as sponsor and portfolio manager of the wrap fee program.

The owners of NPP all worked together at a prior firm. Some clients of that prior firm became clients of Folger Nolan Fleming Douglas Incorporated, a registered investment adviser and broker-dealer. In many cases, the client and the advisory professionals at Folger Nolan have recommended that NPP manage the assets on the Lockwood platform with Pershing as custodian. In these cases, Folger Nolan and its representatives remain responsible for overall investment advice, such as asset allocation and financial planning.

Recommendations of Other Advisers

NPP does not utilize nor select other advisers or third-party managers. All assets are managed by NPP.

Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

- A. A copy of our Code of Ethics is available upon request. Our Code of Ethics includes discussions of our fiduciary duty to clients, political contributions, gifts, entertainment, and trading guidelines.
- B. Not applicable. NPP does not recommend to clients that they invest in any security in which NPP or any principal thereof has any financial interest.
- C. On occasion, a principal of NPP may purchase for his or her own account securities which are also recommended for clients. Our Code of Ethics details rules for employees regarding personal trading and avoiding conflicts of interest related to trading in one's own account. To avoid placing a trade before a client (in the case of a purchase) or before a client (in the case of a sale), all employee trades are reviewed by the Compliance Officer. All employee trades should either take place in the same block as the client trade or after the client trade. All trades should receive prior approval from the Compliance Officer. Employee statements are reviewed to confirm compliance with the trading procedures.
- D. On occasion, a principal of NPP may purchase for his or her own account securities which are also recommended for clients at the same time the clients purchase the securities. Our Code of Ethics details rules for employees regarding personal trading and avoiding conflicts of interest related to trading in one's own account. To avoid placing a trade before a client (in the case of a purchase) or before a client (in the case of a sale), all employee trades are reviewed by the Compliance Officer. All employee trades should either take place in the same block as the client trade or after the client trade. All trades should receive prior approval from the Compliance Officer. Employee statements are reviewed to confirm compliance with the trading procedures.

Review of Accounts

All accounts will be reviewed by a senior professional on at least a quarterly basis. However, it is expected that market conditions, changes in a particular client's account, or changes to a client's circumstances will trigger a review of accounts.

The quarterly reports in writing provided by NPP are intended to review asset allocation. All clients will receive statements and confirmations of trades directly from the agreed upon custodian. Additionally, all clients will receive quarterly itemized bills from NPP. Please refer to Item 15 of the Information Brochure regarding Custody.

Client Referrals and Other Compensation

A. Economic Benefit Provided by Third Parties for Advice Rendered to Client.

Please refer to Item 12 of the Informational brochure, where we discuss recommendation of Broker-Dealers.

B. Compensation to Non-Advisory Personnel for Client Referrals.

Clients may be introduced to NPP via other third parties. In the event that NPP compensates any party for the referral of a client to NPP, any such compensation will be paid by NPP, and not the client. If the client is introduced to NPP by an unaffiliated third party, that third party will disclose to the client the referral arrangement with NPP, including the compensation for the referral, and provide the client a copy of NPP's ADV Part 2A and 2B. The referral source will also provide a written disclosure to the client regarding the relationship between NPP and the referral source, including the fact that referral fees will be paid. Specifically, as discussed in above in Item 10 of the Form ADV Part 2A, clients may be referred by Folger Nolan.

Financial Information

NPP does not require the prepayment of fees more than \$1,200 six (6) months or more in advance and therefore has not provided a balance sheet with this brochure.

There are no material financial circumstances or conditions that would reasonably be expected to impair our ability to meet our contractual obligations to our clients.

New Potomac Partners, LLC
ADV Part 3 – Client Relationship Summary (Form CRS)
March 2023

Item 1 - Introduction

New Potomac Partners, LLC is an investment adviser registered with the Securities and Exchange Commission ("SEC"). Brokerage and investment advisory services and fees differ, and it is important for you to understand the differences. Free and simple sources and tools are available to research firms and financial professionals at [Investor.gov/CRS](https://investor.gov/CRS), which also provides educational materials about broker-dealers, investment advisers, and investing.

Item 2 - Relationships and Services

"What investment services and advice can you provide me?"

Our firm primarily offers the following investment advisory services to retail clients:

Portfolio management: via both a wrap fee program and as sub advisors where we review your portfolio and investments and implement an investment strategy that meets your goals. The majority of our clients allow us to buy and sell investments in their accounts without asking them in advance. (A "discretionary account") We also offer the option of giving clients advice but only doing buys and sells at the clients' direction. (A "non-discretionary account") In either case we monitor clients' accounts on an ongoing basis. We limit the types of investments that are recommended since not every type of investment vehicle is needed to create an appropriate portfolio. We do not have a minimum account size. We are held to a fiduciary standard which means we must always act in our clients' best interest and either eliminate or disclose any conflicts that may arise.

Financial planning: we analyze your overall financial situation and personal circumstances and then help you identify and select goals and provide advice to help you strategically achieve your goals.

Please also see our Form ADV Part 2A ("Brochure"), specifically Items 4 & 7, at the following link:
<https://adviserinfo.sec.gov/firm/summary/170061>.

Conversation Starters - Questions to ask us:

- Given my financial situation, should I choose an investment advisory service? Why or why not?
- How will you choose investments to recommend to me?
- What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?

Item 3: Fees, Costs, Conflicts, and Standard of Conduct

"What fees will I pay?"

Our fees vary depending on the services you receive. For portfolio management, you will pay an on-going fee at the end of each quarter based on the total value of your account. This asset-based fee reduces the value of your account and is generally deducted from your account. All fees for the accounts that we manage are billed quarterly in arrears. The accounts we sub advise are billed quarterly in advance. You pay our fees even if you do not have any transactions and the advisory fee paid to us generally does not vary based on the type of investments selected. NPP's fee schedule for discretionary asset management is as follows:

Assets Under Management	Annual Rate
\$0-\$750,000	1.25%
\$750,000-\$1,500,000	1.00%
\$1,500,000-\$2,500,000	0.75%
\$2,500,000-\$5,000,000	0.60%
\$5,000,000 and above	Negotiable

For financial planning we use an hourly fee arrangement or a fixed fee arrangement. For our hourly fee, each additional hour (or portion thereof) we spend working for you would increase the total fees you pay to us. Our fixed fee arrangements are based on the amount of work we expect to perform for you, so material changes in that amount of work will affect the total fee we quote you. If a current portfolio management client needs financial planning work we may waive these additional fees, at our discretion, if we deem the amount of financial planning work needed to be minimal.

Third Party Costs: Some investments (e.g., exchange traded, mutual funds, etc.) impose additional fees (e.g., product-level fees) that reduce the value of your investment over time. Our goal is to limit the amount of these types of investments in your account to minimize overall fees while still providing proper diversification. You will also pay miscellaneous fees to a custodian that will hold your assets. For the wrap fee program, you will not typically pay additional transaction fees and thus our advisory fee is higher than if you paid transaction fees separately. You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

Please also see our Form ADV Part 2A ("Brochure"), specifically Item 4, 5, 6, 7, & 8, at the following link: <https://adviserinfo.sec.gov/firm/summary/170061>.

Conversation Starters - Questions to ask us:

- Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

"What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?"

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice, we provide you. Here is an example to help you understand what this means:

- Since we earn more fees as your assets under management rise, we have an incentive to encourage you to place all of your available investment assets under our management.

Please also see our Form ADV Part 2A ("Brochure"), specifically Item 11, at the following link: <https://adviserinfo.sec.gov/firm/summary/170061>.

Conversation Starters - Questions to ask us:

- How might your conflicts of interest affect me, and how will you address them?

"How do your financial professionals make money?"

Our financial professionals are paid based on the amount of assets under advisement. Please also see our Form ADV Part 2A ("Brochure"), specifically Item 10, at the following link: <https://adviserinfo.sec.gov/firm/summary/170061>.

Item 4: Disciplinary History

"Do you or your financial professionals have legal or disciplinary history?"

No, neither the Firm nor its financial professionals have legal or disciplinary history. Visit Investor.gov/CRS for a free, simple search tool to research us and our financial professionals.

Conversation Starters - Questions to ask us:

- As a financial professional, do you have any disciplinary history? For what type of conduct?

Item 5: Additional Information

For additional information on our advisory services, see our Brochure available at <https://adviserinfo.sec.gov/firm/summary/170061> and any individual brochure supplement your representative provides. If you have any questions, need additional up-to-date, or want another copy of this Client Relationship Summary, then please contact us at 240-253-4280.

Conversation Starter - Questions to ask us:

- Who is my primary contact person? Is he or she a representative of an investment adviser or a broker-dealer?
- Who can I talk to if I have concerns about how this person is treating me?

Exhibit 1 – Material Changes

This copy of the Customer Relationship Summary was updated on March 24, 2023. Immaterial formatting and the phrasing updates were made to all sections per SEC Form CRS instructions.

The following material changes were made:

Item 3: Fees, Costs, Conflicts, and Standard of Conduct

- Addition of the investment management fee schedule

NEW POTOMAC PARTNERS LLC

Privacy Notice

This notice is being provided to you in accordance with the Securities and Exchange Commission's rule regarding the privacy of consumer financial information ("Regulation S-P"). Please take the time to read and understand the privacy policies and procedures that we have implemented to safeguard your nonpublic personal information.

INFORMATION WE COLLECT

NEW POTOMAC PARTNERS LLC must collect certain personally identifiable financial information about its clients to ensure that it offers the highest quality financial services and products. The personally identifiable financial information which we gather during the normal course of doing business with you may include:

1. information we receive from you on applications or other forms;
2. information about your transactions with us, our affiliates, or others;
3. information collected through an Internet "cookie" (an information collecting device from a web server); and
4. information we receive from a consumer reporting agency.

INFORMATION WE DISCLOSE

We do not disclose any nonpublic personal information about our clients or former clients to anyone, except as permitted by law. We do not disclose your personal information to any third party for the purpose of allowing that party to market other products to you. In accordance with Section 248.13 of Regulation S-P, we may disclose all of the information we collect, as described above, to certain nonaffiliated third parties such as attorneys, accountants, auditors and persons or entities that are assessing our compliance with industry standards. We enter into contractual agreements with all nonaffiliated third parties that prohibit such third parties from disclosing or using the information other than to carry out the purposes for which we disclose the information.

CONFIDENTIALITY AND SECURITY

We restrict access to nonpublic personal information about you to those employees who need to know that information to provide financial products or services to you. We maintain physical, electronic, and procedural safeguards that comply with federal standards to guard your nonpublic personal information.
