**Beyond a Parent’s Love is a collection of human-interest stories of several families describing their challenges, struggles and triumphs of raising a child or children with disability. While it describes planning strategies for the future of a person with special needs, it also focuses on the family dynamics, parent’s acceptance of their child’s disability and concerns about caring for the child after the parents are gone. These are true stories and each one of them provides insights and lessons that can be learned.**
