<p>What investment services and advice can you provide me?</p>	<p>GPM is an employee owned investment advisory firm formed in 1993 to manage money and help clients achieve their financial planning goals. We offer discretionary investment management services to individuals, profit sharing plans, trusts, estates, charitable organizations, and small businesses. We also provide individual clients with well-tailored wealth management guidance including preparation of long-term projections that put retirement planning in clear focus. Our standard account minimum is \$500,000.</p> <p>The foundation of our investment approach is the ownership of approximately 30 high quality, historically successful, U.S. based growth companies. Our <i>Long-Term Growth portfolios</i> normally invest 100% in stocks. <i>Balanced portfolios</i> take a more conservative approach holding stocks and bonds. Our team members invest in our model securities alongside our clients.</p> <p>Account holdings are monitored daily. All model positions are regularly reviewed based on the outlook for the stock and bond market, the outlook for the individual securities held and to determine if holdings continue to be consistent with the objectives of the account. If it is determined that a particular security should be added to or removed from the accounts, each account will be reviewed for inclusion in a block trade for which an order will be entered. This is part of our standard service.</p> <p>For additional information, please see Items 4 and 7 in our Form ADV Brochure, which is located on our website, gpmgrowth.com.</p> <p>Ask your financial professional –</p> <ul style="list-style-type: none"> • Given my financial situation, should I choose an investment advisory service?
