An Announcement from Doran Independent Insurance

Even in these early days of the Coronavirus being near our local communities, most people already wish for things to feel and operate normally again. We at Doran Independent Insurance are looking to strike the balance between 'normal' as well as being responsible to keep our clients and staff as safe as possible.

Beginning now, and for the next few weeks, our office remains open but with a limited staff at the office and other staff members working remotely from their homes. It is our goal that service to you, our clients, continues with minimal or no disruption. We encourage clients to call in or email to the office first instead of stopping in to limit face-to-face contact for the next few weeks.

Thank you all for entrusting us to guide you through the processes of obtaining, maintaining and servicing your health, life and long-term care policies. We value each and every client relationship.
