## Are you prepared for retirement? What is your retirement dream?

The amount of money you will need in future years depends on the lifestyle you plan to lead. Use your imagination to construct a picture of the way you want to live. Consider the following questions and the financial impact of each as you try to imagine your retirement. If you are married, you and your spouse might wish to answer them together.

1. Do you plan on retiring? If so, will you stop working permanently?

---

2. How would you describe the type of retirement lifestyle you'd like to be living? What would you like to be doing?

---

---

3. Do you think you might like to keep working (perhaps part-time) to remain involved, or do you think you might need to keep working (perhaps part-time) for financial reasons?

---

---

4. Do you think you might wish to move? Why - or why not?

---

---

---

5. How is your health? Are you taking excellent care of yourself?

---

---

---

6. What medical risks are you worried about (chronic illness, heart surgery, arthritis)?

---

---

---

7. Are you prepared to pay for long-term care, should it be needed?

---

---

8. Do you think that you might wind up having to care for one of your parents or in-laws?

---

9. Would you like to leave an inheritance to your children/grandchildren, or perhaps contribute to your grandchildren's education?

---

---

10. In your maturity, what state of mind would you ideally like to be in?

---

---

11. What do you think you might like to do with your free time? Would you like to start a new career? Pursue a favorite hobby? Go back to school? Learn some new skills? Start your own company? Volunteer? Contribute to your community?

---

---

---

12. Are you preparing--psychologically and financially--to live the life you want in retirement?

---

---

13. What steps should you be taking now to prepare?

---

---

---

14. What questions need to be answered for you to feel even more secure with your plans?

---

---

---
