

**March 24, 2020**

In the wake of Washington State's "Stay Home, Stay Healthy" order, our team at Tamarack Tax & Consulting, LLC has made the decision to work remotely. We remain committed to completing our clients' work as timely as possible. Our business model remains largely unchanged. However, we will have less administrative support. We currently anticipate only minimal delays in our normal processing times.

Again, without reiterating the concerns and actions our government has taken to mitigate the risk of overloading our healthcare system, we at Tamarack Tax & Consulting, LLC, will continue to respect the decisions of others but wish to operate legitimately within the instruction of the government. The benefit of operating a paperless, cloud-based office, is that we can continue to serve our clients through teleconferencing, email, and a variety of online video conferencing methods. We offer our clients the ability to be invited to use our Link portal and other methods for file sharing.

In recent news, it was announced on March 17, 2020, that the US Treasury has granted an additional 90 days for taxpayers to make their tax payments to the government, making the new deadline to **pay** July 15, 2020, with certain limitations. During this time period, taxpayers will not be assessed interest and penalties. Furthermore, as of March 21, 2020, the US Treasury has announced the deadline for taxpayers to **file** their return is now also July 15, 2020. Even with the change to filing deadline, our team at Tamarack Tax & Consulting, LLC will be working diligently to meet the April 15<sup>th</sup> deadline for our tax clients who have provided their information.

Yours very truly,

*Mariette Luchini, CPA*
