### **Financial Firm Offers Goal Setting Tips**

Trappe, PA – According to the website [statisticbrain.com](http://statisticbrain.com), 45% of all Americans set New Year's Resolutions every year. Unfortunately, it's estimated that only 8% of Americans actually achieve their New Year's goals.

Among the most popular goals that Americans set are financial. Whether it's saving more money, getting out of debt or simply getting your financial house in order, Thomas A. Kalejta, owner of Kalejta Financial Management, says the same key component frequently prevails in preventing people from achieving their goals – procrastination!

"Everyone thinks about setting goals at the start of the New Year, but the best route to success is to resolve to take action today – whether that's January 1<sup>st</sup> or June 1<sup>st</sup>," said Kalejta.

Kalejta has been helping families achieve their financial goals for over twenty years and says that procrastination steals the time that is so precious in making headway. Furthermore, he said it is a "robber of wealth." It is important to remember that previous setbacks do not have any control over our future- unless we allow it.

Kalejta's firm is offering its weekly e-newsletter which provides easy-to-understand financial information and tips to anyone who is ready to get serious about their financial goals. Simply sign up on their website ([www.Kalejta.com](http://www.Kalejta.com)). Kalejta Financial Management can also be reached by phone at 610-831-2195.

Kalejta Financial Management has been helping families build their wealth and protect their dreams since 2000. The Trappe based firm focuses on helping clients assess their retirement readiness.
