

There's a right way and a wrong way
to save money tax-deferred.

Meet Monument Advisor.

\$20-a-month flat-insurance fee¹. 330+ investment options. 100% transparency.

One powerful idea.

*Morningstar 12/10: The typical annuity insurance fee is 1.35%. Asset size at year 0 is \$250k. Assumed hypothetical annual growth rate for this illustration is 8%. This is purely hypothetical and does not reflect the growth rate of any annuity. This illustration does not include enhanced death benefit options or riders.

A POWERFUL IDEA WHOSE TIME HAS COME ▶

The idea behind Monument Advisor couldn't be simpler. It's an easy-to-grasp investment vehicle that delivers exceptional consumer value on a variety of key levels.

Value #1: Low fees. Monument Advisor offers an affordable flat-insurance fee of just \$20 a month¹ for the length of the investment regardless of how much you invest (compared to 1.35% of assets for the typical variable annuity). As a result, our average customer could potentially save \$2,500 per year in fees. By keeping fees low your fee savings grows and compounds within your account, helping you potentially accumulate wealth faster.

Value #2: Transparency. With Monument Advisor the fees are simple and transparent. You pay \$20 per month plus the costs of whichever funds you choose to invest in. You will see it clearly on your statement. With most variable annuities, the cost of the account (the M&E fee) is built into the cost of the funds,

making it difficult to see what you are paying for the account versus what you are paying for the underlying investments.

Value #3. Round-the-clock account access. With Monument Advisor, you have 24/7 online access to all aspects of your account so you or your advisor can track your account, manage your assets, and make other changes online, anytime you need to.

TAX-DEFERRAL—A GREAT IDEA MADE BETTER ▶

Most investors hate VAs because they just don't deliver low-cost tax deferral. Monument Advisor is 180 degrees from typical VAs. Monument Advisor's flat-insurance fee of \$20/mo doesn't eat into the value of tax-deferral the way traditional M&E charges do. With Monument Advisor, you not only tax defer until retirement when taxes are owed, you potentially accumulate more because you earn both on fee savings and principal. And there's virtually no contribution cap on the

amount of funds you can invest with Monument Advisor the way there is with tax-deferred qualified plans like 401(K)s and IRAs. With Monument Advisor you can tax-defer as much as \$10 million.

SWAP YOUR EXISTING VARIABLE ANNUITY FOR FEE SAVINGS: BUILD WEALTH WITH A NEW CONTRACT ▶

"The old annuities lacked transparency," says one veteran financial advisor. "Hefty internal fees never got disclosed. I never recommended a VA to any of my clients until Monument Advisor showed up." But with the increased consumer value from a flat-insurance fee and the ease of transferring from an existing VA into Monument Advisor, high net worth investors are seeing the value. A simple process called a 1035 exchange completes the deal with no tax liability.² More good news. The money investors save on fees is substantial—over \$2,500 on average.³ And those savings could compound handsomely over the life of the contract.
