

2020 Stimulus Payments

1: The IRS has started to distribute stimulus payments

If you have specific questions, call the IRS at 800-829-1040.

There is no guidance as to how or when the individual payments will be distributed.

2: If you are entitled to a stimulus payment you will receive the funds:

Via the same bank account that you had your 2019 tax refund deposited into.

The bank account your Social Security payments are deposited into.

If the above are not available, the IRS will send a check.

3: If you want to change bank accounts or add a bank account go to:

www.irs.gov

Click on “Get my payment” input information

4: Not everyone is entitled to a stimulus payment.

There are income limits. (Single income under \$75,000, Married Joint under \$150,000)

If a “child” files their own tax return, they may not be entitled to a stimulus payment.

They must provide more than ½ their own support.
