Comprehensive Financial Solutions Continues Scholarship Fund at Salisbury University

Salisbury, MD - CFS, Inc. (Comprehensive Financial Solutions) provides personalized solutions to its clients across Delmarva and throughout the United States, including Financial Planning, Small Business Retirement Plans, Tax, Insurance, and Wealth Management.

In 2018, CFS worked with Salisbury University to begin offering a Next Gen Scholarship for students pursuing careers in the financial industry. With Salisbury University Alums on their team, including a Chartered Financial Analyst™, CFS makes it known the value it places on higher education. CFS Partner and Certified Financial Planner™ Michael Sise previously taught Retirement Planning at Salisbury University's Franklin P. Perdue School of Business.

"We are appreciative of CFS and their team on supporting Salisbury University through their Next Gen Scholarship. The most impactful thing we can do is help to make a student's pursuit of a higher education affordable and accessible. CFS is doing just that.", offered Jason Curtin '98, Vice President for Advancement & External Affairs and Executive Director of the Salisbury University Foundation, Inc.

It is CFS' goal to offer this scholarship to provide many benefits to the students, aside from lessening their financial obligation. The scholarship allows for students to stand out amongst applicants for jobs upon graduation, as well as increase connections in the community when seeking industry opportunities. CFS has served the Delmarva community for over 35 years with deep ties to Salisbury and its University – the firm is honored to be able to do this for the students.

At Comprehensive Financial Solutions (CFS) we have assembled a Team of experienced, highly qualified professionals who have been helping families pursue their financial goals for over 35 years. Securities and advisory services are offered through Cetera Advisors LLC, member FINRA/SIPC, a broker/dealer and registered investment adviser. Cetera is under separate ownership from any other named entity.
